CHAIRMAN'S STATEMENT

On behalf of the Board of Directors (the "Board"), I am pleased to present the audited annual results of Xingda International Holdings Limited (the "Company") and its subsidiaries (collectively the "Group" or "Xingda") for the year ended 31 December 2023.

Over the past year, the global economy gradually emerged from the haze of the pandemic and showed a weak recovery. The Group's business still recorded stable growth in 2023. During the year, the Group's revenue increased by 6.3% year-on-year to RMB11,490 million (2022: RMB10,812 million). Gross profit dropped by 3.2% year-on-year to RMB2,201 million (2022: RMB2,274 million) and gross profit margin decreased 1.8 percentage points year-on-year to 19.2% (2022: 21.0%), which was mainly attributable to the fact that the impairment of property, plant and equipment of RMB92 million was included in cost of sales during the year. Profit attributable to owners of the Company rose by 29.0% year-on-year to RMB449 million (2022: RMB348 million). Basic earnings per share were RMB27.07 cents (2022: RMB20.99 cents). The Board of Directors recommended payment of a final dividend of 13.0 HK cents per share for the year ended 31 December 2023 (2022: 15.0 HK cents per share).

In 2023, China's economy continued to recover steadily, with economic activities gradually picking up, and the logistics industry was improving steadily. The production and sales of automobiles exceeded 30 million units, reaching a record high. Consequently, the production and sales of radial tire cords benefited from it. In 2023, various favorable policies were issued by relevant government agencies in China, including infrastructure improvements, car purchase incentives, aiming to stimulate the recovery of automobile consumption market. The automobile market in China has shown a clear trend of recovery starting from the second quarter, significantly boosting the complementary demand. In the logistics industry, particularly in the third quarter, with the implementation of a series of policies to stabilize growth, there were positive changes throughout the industry chain, leading to an overall increase in logistics demand, thereby driving the growth of tire demand as well.

As for overseas markets, demand remained strong, coupled with the comprehensive impact of falling shipping costs and raw material prices, which significantly boosted the export sales of radial tire cords. In 2023, China's cumulative tire exports reached 616 million units, an increase of 11.8% year-on-year; the export value exceeded RMB150 billion, an increase of 19.5% year-on-year, a year of bountiful harvest in exports.

In September 2023, the Group established a joint venture company with 華勤橡膠工業集團有限公司 (Huaqin Rubber Industry Group Co., Ltd*) ("Huaqin Rubber"). Huaqin Rubber is mainly engaged in rubber production businesses, while the joint venture company will principally focus on manufacturing steel cords related to radial tire framework materials. It is expected that the joint venture company will generate business synergies between the Group and Huaqin Rubber, strengthen the Group's production capacity, broaden the revenue base and expand the business scope in China.

CHAIRMAN'S STATEMENT

Looking ahead, the positive trend of China's economic recovery is expected to be further consolidated and strengthened in 2024. The government will continue to intensify the implementation of macroeconomic policies, strengthen real economy, promote consumption, expand investment and stabilize foreign trade. It is anticipated that domestic demand for tires and export volume in China will continue to rise. Despite the unstable geopolitical situation globally, the risks facing global growth are roughly balanced, economic activities remain relatively active and the tire replacement cycle is shortened. This is expected to drive up overseas tire demand, and boost the development of the radial tire cord industry. The Group will closely monitor changes in overseas markets, and the management remains optimistic about the industry's development in 2024.

In 2024, the Group will fully embrace the growing domestic market demand and actively expand overseas markets in Europe, America, Southeast Asia and India. Xingda is committed to improving the product quality of radial tire cords, steadily expanding into new tracks, and promoting the sustainable development of the tire industry.

On behalf of the Board of Directors, I would like to take this opportunity to express my sincere gratitude to shareholders, the management and all employees for their contribution to the Group. The Group will strive to maintain steady growth, further consolidate its market leadership and bring long-term investment returns to shareholders.

MANAGEMENT DISCUSSION AND ANALYSIS

Xingda International Holdings Limited (the “Company”) and its subsidiaries (collectively the “Group” or “Xingda”) are pleased to present the audited consolidated annual results of the Group for the year ended 31 December 2023.

For the twelve months ended 31 December 2023, the Group recorded revenue of RMB11,490.5 million, representing a year-on-year increase of 6.3% (2022: RMB10,812.0 million). Gross profit dropped by 3.2% year-on-year to RMB2,200.5 million (2022: RMB2,273.5 million) and gross profit margin fell by 1.8 percentage points against the same period last year to 19.2% (2022: 21.0%). Profit attributable to owners of the Company increased by 29.0% year-on-year to RMB449.4 million (2022: RMB348.4 million). Basic earnings per share were RMB27.07 cents (2022: RMB20.99 cents). The Board recommends the payment of final dividend of HK13.0 cents per share (equivalent to approximately RMB11.8 cents) for the 12 months ended 31 December 2023.

INDUSTRY OVERVIEW

In 2023, China’s economy fully recovered and stabilized. According to data from the National Bureau of Statistics, China’s gross domestic product (GDP) grew by 5.2% year-on-year in 2023, achieving major expected targets. As the domestic economy reached new heights, national freight logistics also saw improvements in quality and efficiency, with continuous increases in traffic flow on highways, steady recovery in truck traffic, and strong rebound in passenger car traffic.

In terms of policy, seven Chinese government agencies, including the Ministry of Industry and Information Technology (MIIT), jointly issued the Work Plan for Stable Growth of the Automobile Industry (2023-2024) in the second half of 2023. The plan proposes to support the expansion of new energy vehicle consumption and stabilize fuel vehicle consumption, thereby promoting stable growth of the automobile industry and supporting stable and healthy operation of the industrial economy.

According to the latest data from the China Association of Automobile Manufacturers (CAAM), China’s automobile production and sales reached 30.161 million and 30.094 million respectively in 2023, hitting record highs with year-on-year increases of 11.6% and 12.0% respectively, driving demand for radial tire cords. Additionally, according to statistics from the Ministry of Public Security, as of the end of December 2023, the number of automobiles in service in China reached 336 million, providing sustained support for the replacement market of radial tires in the long run.

In 2023, with the global automotive industry chain recovering and export-driven growth, China’s tire industry saw a comprehensive recovery in operating conditions. Against the backdrop of growing demand and falling prices of raw materials and shipping fees, the tire industry witnessed booming production and sales, benefiting the overseas business of radial tire cords.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

In 2023, with the rise of domestic demand while demand in overseas markets maintained steady growth, the industry of radial tire cord remained stable. Being to give full play to its advantages as an industry leader, Xingda maintained overall stable business growth. During the year, the Group recorded total sales volume of 1,306,100 tonnes, up by 23.8% year-on-year, and that of radial tire cords boosted by 24.9% year-on-year to 1,043,000 tonnes, accounting for 79.9% of the Group's total sales volume (2022: 79.2%). Sales volume of bead wires increased by 21.6% to 155,300 tonnes, accounting for 11.9% of the Group's total sales volume (2022: 12.1%). As for hose wires and other wires, their total sales volume increased by 16.9% to 107,800 tonnes, making up 8.2% of the Group's total sales volume (2022: 8.7%).

During the year, sales volume of the Group's radial tire cords for trucks increased 25.0% year-on-year to 587,700 tonnes, mainly due to the economic and logistic activities in China getting back to normal gradually, plus the increase in tire production and demand in the country year-on year. Moreover, as the rebound of domestic market demand on radial tires for passenger cars boosted the sales volume of the Group's radial tire cords for passenger cars during the year, the Group's sales volume of radial tire cords for passenger cars saw an increase of 24.9% to 455,300 tonnes. The sales volume of radial tire cords for trucks and passenger cars accounted for 56.3% and 43.7%, respectively, of the total sales volume of radial tire cords during the year.

Sales Volume

	2023	2022	Change
	Tonnes	Tonnes	
Radial tire cords	1,043,000	834,800	+24.9%
– For trucks	587,700	470,300	+25.0%
– For passenger cars	455,300	364,500	+24.9%
Bead wires	155,300	127,700	+21.6%
Hose wires and other wires	107,800	92,200	+16.9%
	<hr/>	<hr/>	
Total	<u>1,306,100</u>	<u>1,054,700</u>	+23.8%

In the China market, sales volume of the Group's radial tire cords increased by 32.1% to 759,700 tonnes in 2023 (2022: 575,300 tonnes), mainly due to the improved market demand of radial tires as a result of more frequent domestic economic activities and better GDP. During the year, overseas market demand remained strong. Sales volume of radial tire cords increased by 9.2% to 283,300 tonnes (2022: 259,500 tonnes), mainly due to continuous growth in demand from overseas tire manufacturers. Domestic and overseas markets accounted for 72.8% and 27.2% of the Group's total sales volume, respectively (2022: 68.9% and 31.1%).

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW – CONTINUED

Sales Volume – Continued

As at 31 December 2023, the Group's annual production capacity of radial tire cords increased to 1,074,000 tonnes, with the annual production capacity of the Jiangsu, Shandong and Thailand factories reaching 802,000 tonnes, 197,000 tonnes and 75,000 tonnes, respectively. The annual production capacity of bead wires dropped to 161,000 tonnes. The annual production capacity of hose wires and other wires increased to 114,000 tonnes. During the year, the overall capacity utilization rate of the Group's plants was increased to 96.3% (2022: 84.7%) due to the recovery of the domestic radial tires market and growing demand for radial tire cords.

	2023	2023	2022	2022
	Production	Utilization	Production	Utilization
	Capacity	Rate	Capacity	Rate
	(Tonnes)		(Tonnes)	
Radial tire cords	1,074,000	96.3%	972,100	86.1%

Overall	1,349,000	96.3%	1,245,600	84.7%

To bolster production capacity and enlarge its business footprint, the Group has continued to devote resources to enhance product research and development, reform product technology and provide customized radial tire cords to customers for meeting their needs. In 2023, Xingda developed 37 new radial tire cords and 23 new bead wires and other wires.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW – CONTINUED

Revenue – Continued

During the year, the Group's revenue increased by RMB678.5 million or 6.3% year-on-year to RMB11,490.5 million (2022: RMB10,812.0 million), mainly due to the increase in demand and sales volume in both domestic and overseas market.

Gross profit and gross profit margin

The Group's gross profit decreased by RMB73.0 million or 3.2% to RMB2,200.5 million (2022: RMB2,273.5 million), with gross profit margin at 19.2% (2022: 21.0%), representing a year-on year decrease of 1.8 percentage points. Both gross profit and gross profit margin declined mainly due to the impairment loss on property, plant and equipment of RMB91.6 million being included in cost of sales in 2023.

Other income

Other income decreased by RMB68.8 million or 32.2% to RMB145.0 million (2022: RMB213.8 million), mainly due to the decrease in bank interest income from fixed bank deposits and bank balances and the lack of income from sales of other materials during the year.

Government grants

During the year, government grants decreased by RMB8.6 million or 37.9% to RMB14.1 million (2022: RMB22.7 million), mainly due to a decrease in subsidies from the local government in China.

Other gains and losses, net

Other gains and losses, net decreased by RMB84.9 million or 55.7% from net gain of RMB152.3 million in 2022 to net gain of RMB67.4 million in 2023. It was mainly due to a decrease in net foreign exchange gain recorded during the year.

Recognition of impairment losses under expected credit loss model

Recognition of impairment losses under expected credit loss model increased by RMB23.5 million or 940.0% to RMB26.0 million in 2023 (2022: RMB2.5 million). It was mainly attributable to an increase in default rates which were used in expected credit loss model in 2023.

Other expense

Other expense decreased by RMB26.0 million or 76.9% to RMB7.8 million (2022: RMB33.8 million), mainly due to the fact that no cost of sales of other materials was recorded in 2023.

Distribution and selling expenses

Distribution and selling expenses decreased by RMB264.6 million or 24.9% to RMB796.4 million (2022: RMB1,061.0 million), mainly due to lower transportation costs under decreasing shipment fees on a year-on-year basis.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW – CONTINUED

Administrative expenses

Administrative expenses increased by RMB4.8 million or 1.1% to RMB457.0 million (2022: RMB452.2 million), mainly due to an increase in consultancy and professional fees recorded in 2023.

Research and development expenditure

Research and development expenditure increased by RMB1.5 million or 0.9% to RMB170.7 million (2022: RMB169.2 million), mainly because the Group contributed overall more resources to the research and development of new products in the whole year of 2023.

Finance costs

If the finance costs including the interests capitalised in the cost of qualifying assets, they would have been increased by RMB9.5 million or 3.9% to RMB251.6 million (2022: RMB242.1 million). The increase was mainly due to the rise of average balance of bank borrowings on a year-on-year basis.

Income tax expense

The Group's income tax expense decreased by RMB88.0 million or 47.2% to RMB98.4 million (2022: RMB186.4 million), with an effective tax rate of 13.4% (2022: 25.0%). Part of the deductible expenses in year 2022 were deferred to year 2023 for recognition and offsetting against the current tax and the deferred tax credit in year 2023 was also increased. Accordingly, the effective tax rate was dropped on a year-on-year basis.

Net profit

Taking the above factors into account, the Group's net profit for the year increased by RMB79.2 million or 14.2% to RMB637.4 million (2022: RMB558.2 million).

LIQUIDITY, CAPITAL RESOURCES AND CAPITAL STRUCTURE

During the year, there were no significant changes in the Group's funding and treasury policies. The principal source of liquidity and capital resources was the cash flow generated from operating activities, whereas the principal usages of cash were for the acquisition of property, plant and equipment and payment of dividends and income tax.

Bank balances and cash of the Group decreased by RMB254.1 million or 30.8% from RMB824.9 million as at 31 December 2022 to RMB570.8 million as at 31 December 2023. The decrease was mainly due the cash used in investing activities of RMB941.9 million and financing activities of RMB956.8 million respectively, exceeding the cash that has been generated from operating activities of RMB1,633.4 million and the increase in cash under the effect of foreign exchange rate changes of RMB11.2 million.

MANAGEMENT DISCUSSION AND ANALYSIS

LIQUIDITY, CAPITAL RESOURCES AND CAPITAL STRUCTURE – CONTINUED

Borrowings decreased by RMB261.7 million or 3.8% to RMB6,630.1 million as at 31 December 2023 from RMB6,891.8 million as at 31 December 2022. The bank borrowings carry interest at fixed rates from 1.35% to 3.90% (31 December 2022: 1.35% to 4.05%) and variable rates from 2.90% to 7.73% (31 December 2022: 3.40% to 7.22%). Borrowings of RMB6,120.3 million are repayable within one year from 31 December 2023 and the remaining borrowings of RMB509.8 million are repayable after one year from 31 December 2023.

As at 31 December 2023, the Group's current assets decreased by RMB56.2 million or 0.5% to RMB11,587.8 million (31 December 2022: RMB11,644.0 million). Current liabilities decreased by RMB56.0 million or 0.5% to RMB11,568.2 million (31 December 2022: RMB11,624.2 million). The Group's current ratio (being defined as current assets over current liabilities) maintained at 1.0 time (31 December 2022: 1.0 time). The gearing ratio (being defined as total borrowings to total assets) as at 31 December 2023 was 32.0% (31 December 2022: 32.8%).

FOREIGN EXCHANGE RISK

The Group's sales and purchases were principally denominated in RMB, US dollars, Euros and Thai Baht.

Apart from certain bank and debtors' balances in US dollars, Euros, Hong Kong dollars and Thai baht, most of the current assets and current liabilities of the Group were denominated in Renminbi. Therefore, the Group was not exposed to significant foreign exchange risk. The Group did not enter into any financial derivative instruments to hedge against foreign exchange currency risk during the period under review. However, the Group is closely monitoring the impact of change in value of the Renminbi on its operations and may consider appropriate hedging solutions, if required.

CAPITAL EXPENDITURE

For the year ended 31 December 2023, capital expenditure for property, plant and equipment amounted to RMB1,098.4 million (2022: RMB1,633.0 million).

CAPITAL COMMITMENTS

As at 31 December 2023, the Group had made a capital commitment of approximately RMB228.7 million (31 December 2022: RMB272.4 million) for acquisition of property, plant and equipment and freehold land contracted for but not provided in the consolidated financial statements. The Group did not make any capital commitment for acquisition of property, plant and equipment and freehold land authorised but not contracted as at 31 December 2023 and 31 December 2022. The capital commitment is expected to be met by the internal resources of the Group and borrowings.

CONTINGENT LIABILITIES

The Group did not have any material contingent liabilities as at 31 December 2023 and 31 December 2022.

MANAGEMENT DISCUSSION AND ANALYSIS

PLEDGE OF ASSETS

As at 31 December 2023, bank borrowings were secured by pledged term deposits, leasehold lands and bills receivable of the Group amounting to RMB885.2 million, RMB195.7 million and RMB174.0 million, respectively (31 December 2022: secured by term deposits, leasehold lands and bills receivable amounting to RMB1,978.6 million, RMB199.9 million and RMB163.4 million, respectively).

SIGNIFICANT INVESTMENTS

Pursuant to the placing letter signed by the Company on 2 October 2018, the Company has agreed to subscribe for 11,993,000 shares of Prinx Chengshan Holdings Limited (formerly known as Prinx Chengshan (Cayman) Holding Limited) ("Prinx Chengshan", stock code: 1809.HK), whose shares are listed on the Main Board of the Stock Exchange, at HK\$5.89 per share in cash under the initial public offering. The total subscription money, after expenses, amounted to approximately HK\$71.4 million. The shares held by Xingda accounted for 1.9% of the entire issued shares of Prinx Chengshan as at 31 December 2023 and 31 December 2022 respectively. Prinx Chengshan is a modern enterprise focusing on the research and development, manufacturing, sales of tires and the provision of tire full-life-cycle services, and a leading domestic manufacturer in the PRC's commercial all steel radial tire replacement market. The above mentioned investment still exists and a gain on change in fair value of FVTPL of RMB4.3 million was recorded during the year ended 31 December 2023 (2022: loss of RMB6.2 million). For the year ended 31 December 2023, the dividend income received net of withholding tax from Prinx Chengshan was RMB2.0 million (2022: RMB1.9 million).

The fair value of the investment in Prinx Chengshan as at 31 December 2023 was RMB69.4 million (31 December 2022: RMB65.1 million). The above mentioned investment accounted for 0.3% and 0.3% of the total assets value of the Group as at 31 December 2023 and 31 December 2022 respectively.

Save as disclosed above, the Group had no other significant investments as at 31 December 2023 and 31 December 2022 respectively.

MANAGEMENT DISCUSSION AND ANALYSIS

MATERIAL EVENTS

Discloseable transaction – Formation of Joint Venture Company

As disclosed by the announcement of the Group on 27 September 2023, 江蘇興達鋼簾線股份有限公司 (Jiangsu Xingda Steel Tyre Cord Co., Ltd.*) (“Jiangsu Xingda”), an indirect non-wholly owned subsidiary of the Group, and 華勤橡膠工業集團有限公司 (Huaqin Rubber Industry Group Co., Ltd.*) (“Huaqin Rubber”) entered into an investment agreement dated 27 September 2023 (the “Investment Agreement”) in respect of, among others, the formation of a joint venture company (the “Joint Venture Company”), the non-cash contributions towards the registered capital of the Joint Venture Company and operation and management of the affairs of the Joint Venture Company. The Joint Venture Company will be principally engaged in the manufacture of steel cords in relation to radial tire framework materials. Pursuant to the Investment Agreement, the total investment amount towards the Joint Venture Company was RMB600 million, 60% of which was agreed to be contributed by Jiangsu Xingda through provision of production equipment and 40% of which was agreed to be contributed by Huaqin Rubber through provision of land and factory. The production scale is estimated to be 50,000 tonnes of steel cords. As one or more of the applicable percentage ratios in respect of the Investment Agreement exceeds 5% and all of the percentage ratios are less than 25%, the entering into of the Investment Agreement constitutes a discloseable transaction of the Company and are subject to the notification and announcement requirements under Chapter 14 of the Listing Rules. For details, please refer to the announcement of the Group dated 27 September 2023.

Save as disclosed herein, the Group had no material acquisitions and disposals in relation to its subsidiaries, associates and joint ventures for the year ended 31 December 2023 and 31 December 2022 respectively.

HUMAN RESOURCES

As at 31 December 2023, the Group had approximately 8,700 full time employees (31 December 2022: approximately 7,400). Total staff costs including directors’ remuneration for the year ended 31 December 2023 was RMB1,085.2 million (2022: RMB905.8 million). Salaries are generally reviewed with reference to employees’ merit, qualifications and competence. The calculation of bonuses was based on an evaluation of individual efforts and contributions to the financial performance of the Group. The Group also continues to provide training programs for staff to enhance their technical and product knowledge as well as awareness of industry quality standards.

In addition to salaries and bonuses, the Group also provides various benefits to employees through the Labor Union of Jiangsu Xingda (“Xingda Labor Union”). Each year, major operating subsidiaries including Jiangsu Xingda, 山東興達鋼簾線有限公司 (Shandong Xingda Steel Tyre Cord Co., Ltd.*) (“Shandong Xingda”) and Taizhou Xingda Specialized Wires Co., Ltd. (“Taizhou Xingda”) contribute 2% of the total salary of staff (“Union Fee”) to support operation of the Xingda Labor Union. The Union Fee, together with other funds obtained by the Xingda Labor Union are used to provide a variety of welfare benefits and services to employees of the Group, including provision of staff quarters which employees may choose to purchase. For the year ended 31 December 2023, the amount of Union Fees contributed by the Labour Union of Jiangsu Xingda, Shandong Xingda and Taizhou Xingda was RMB19.1 million (2022: RMB20.3 million).

HUMAN RESOURCES – CONTINUED

According to the Social Insurance Regulations published by the State Council of China on 14 January 1999, the Group is required to make contributions to pension funds and insurance policies for its employees. Full-time employees of the Group in China are covered by the contributory pension scheme managed by the government entitling them to a monthly pension after they retire. The PRC government is responsible for crediting the pension to the retired and the Group is required to make annual contributions to the retirement scheme run by the Xinghua Municipality at a specified rate. The contribution is booked in due course as an operating expense of the Group. Under the scheme, no forfeited contributions are available to reduce the existing level of contributions. Apart from pension funds, the Group has provided medical, personal accident and unemployment insurance policies for its employees.

In 2009, the Board adopted a share award scheme to retain elite employees and encourage them to achieve performance goals by aligning their interests to the shareholders through share ownerships. Shares are to be purchased by the trustee in the market out of cash contributed by the Company and be held in trust for the selected employees until such shares are vested in them.

In 2010, 5,000,000 shares of the Company (the "First Batch Shares") were purchased by the trustee on the public market. In 2011, another 5,000,000 shares of the Company (the "Second Batch Shares") were purchased by the trustee on the public market. In 2013, 10,481,000 shares of the Company were purchased by the trustee on the public market, of which 5,000,000 shares were added to the Second Batch Shares and the remaining 5,481,000 shares were classified as the Third Batch Shares (the "Third Batch Shares"). In 2014, 4,519,000 shares of the Company were purchased by the trustee on the public market and were added to the Third Batch Shares. In 2016, 7,282,000 shares of the Company were purchased by the trustee on the public market (the "Fourth Batch Shares"). In 2017, 601,011 scrip shares allotted under the scrip dividend scheme of the Company as dividend derived from the shares held upon the trust in relation to the share award scheme were added to the Fourth Batch Shares. In 2018, 506,266 scrip shares allotted under the scrip dividend scheme of the Company as dividend derived from the shares held upon the trust in relation to the share award scheme were added to the Fourth Batch Shares. In 2019, 418,899 scrip shares allotted under the scrip dividend scheme of the Company as dividend derived from the shares held upon the trust in relation to the share award scheme were added to the Fourth Batch Shares. Meanwhile, 4,900,000 shares of the Company were purchased by the trustee on the public market, of which 1,075,824 shares were added to the Fourth Batch Shares and the remaining 3,824,176 shares as the Fifth Batch Shares (the "Fifth Batch Shares"). In 2020, 732,018 scrip shares allotted under the scrip dividend scheme of the Company as dividend derived from the shares held upon the trust in relation to the share award scheme were added to the Fifth Batch Shares. In 2021, 665,471 scrip shares allotted under the scrip dividend scheme of the Company as dividend derived from the shares held upon the trust in relation to the share award scheme were added to the Fifth Batch Shares. For the year ended 31 December 2021, 102,000 Fourth Batch Shares were unvested and added to the Fifth Batch Shares. As at 31 December 2023, the balance of the Fifth Batch Shares were 2,139,665 shares.

As at 31 December 2023, all the First Batch Shares, the Second Batch Shares, the Third Batch Shares, the Fourth Batch Shares and one-third of the Fifth Batch Shares have been vested with selected employees. The remaining 2,139,665 Fifth Batch Shares are expected to be vested with selected employees in 2024.

MANAGEMENT DISCUSSION AND ANALYSIS

PROSPECTS

The Central Economic Work Conference held in December 2023 pointed out that the basic trend of the domestic economy's recovery and improvement remains unchanged in the long run. It emphasized the need to adhere to the general principle of seeking progress while ensuring stability in 2024, coordinate the expansion of domestic demand with the deepening of supply-side structural reforms, and promote high-quality development. The Group continues to hold an optimistic view on the development of the radial tire cord industry in the context of active domestic economy, rapid rise in logistics demand, and increased financing support for major projects. Additionally, the National People's Congress and the Chinese People's Political Consultative Conference were convened in Beijing in March 2024. New energy vehicles have become a focus of the sessions, with various provincial governments mentioning the new energy vehicle industry in their work plans, including expanding the industrial chain and stimulating consumption, which is conducive to promoting further industry development.

According to data from CAAM, China's production and sales of new energy vehicles reached 9.587 million and 9.495 million respectively in 2023, with year-on-year increases of 35.8% and 37.9% respectively, and a market share of 31.6%, up by 5.9 percentage points from the same period in 2022. It is believed that the rapid development of new energy vehicles will bring new opportunities for radial tire cords. Meanwhile, the demand in overseas market remains strong, and the decline in raw material and freight rates also facilitates substantial growth in overseas markets.

Looking ahead, Xingda will closely monitor national policies and global economic developments, adjust global strategic deployment in a timely manner, and adhere to the development principle of seeking progress while maintaining stability. It strives to improve product quality and R&D innovation capability, enhance product competitiveness, promote deep integration of industrialization and information technology to fully explore the potential of the domestic market, and actively expand markets in Europe, America, India, and Southeast Asia. As a leading enterprise in radial tire cords, Xingda will continue to lead the industry's development in 2024, provide consumers and the market with higher-end quality products, and help accelerate industrial transformation and upgrading in the rubber industry.

SHARE AWARD SCHEME

Purpose and Participants of the Scheme

On 4 September 2009 ("Adoption Date"), the Board resolved to adopt the share award scheme ("Scheme") to encourage and retain employee(s) selected by the Remuneration Committee (as defined below)(after taking into consideration recommendations and suggestions made by the Chairman) and approved by the Board pursuant to the rules relating to the Scheme ("Scheme Rules") and employee(s) selected by the trustee(s) ("Trustee") for the time being of the trust(s) declared in the trust deed ("Trust Deed") after having taken into consideration recommendations made by the Chairman, considered and consented to by the Remuneration Committee and approved by the Board pursuant to the Scheme Rules for participation in the Scheme ("Selected Employees") to work with the Group and to provide incentive for them to achieve performance goals with a view to achieving the objectives of increasing the value of the Group and aligning the interests of Selected Employees directly to the shareholders of the Company through ownership of Shares. Pursuant to the Scheme, Shares will be purchased by the Trustee in the market out of cash contributed by the Company and be held in trust for the relevant Selected Employees until such Shares are vested in the relevant Selected Employees in accordance with the provisions of the Scheme.

In year 2023, the participants of the Scheme include three of the executive Directors, namely Mr. Liu Jinlan, Mr. Liu Xiang and Mr. Zhang Yuxiao, and one of the independent non-executive Directors, namely Mr. Koo Fook Sun Louis, the senior management personnel, and core technical personnel and key management personnel of the Company and its subsidiaries who provide a significant impact on the Group's overall operation and development.

As at the date of the Annual Report, the total number of Company's shares awards had been granted but not yet vested under the Scheme was approximately 18,774,667, representing 1.0% of the total issued shares of the Company.

DIRECTORS' REPORT

SHARE AWARD SCHEME – CONTINUED

Purpose and Participants of the Scheme – CONTINUED

According to the Scheme Rules, subject to terms of the Scheme Rules and the approval of the Board, the Remuneration Committee may, from time to time after taking into consideration recommendations and suggestions made by the chairman of the Board, at its discretion and subject to such terms and conditions as it may think fit, among other things (i) determine the aggregate number of awarded shares to be granted to all the Selected Employees in respect of each relevant financial year; and (ii) determine the number of awarded shares to be granted to each of the Selected Employees in respect of each relevant financial year out of the aggregate number of awarded shares to be granted in respect of such financial year as referred to in paragraph (i) above, and such awarded shares so granted to each Selected Employee shall constitute all or part of the annual remuneration (in whatever kind(s) or form(s)) in respect of the relevant financial year payable to such Selected Employee as contemplated under his employment agreement or service agreement with the relevant member of the Group, provided always that no award shall be made to any Selected Employee in respect of any financial year unless the Earnings Per Share (as defined below) of the Company for such financial year is a positive figure or unless such other condition(s) (if any) as determined or approved by the Board from time to time shall have been satisfied or unless otherwise determined by the Board. "Earnings Per Share" of the Company in respect of a financial year shall mean (i) the profit attributable to equity holders of the Company for that financial year divided by (ii) the weighted average number of ordinary shares of the Company in issue during that financial year.

Upon receiving the letter of grant from the Company setting out the number of shares awarded to him/her and relevant terms and conditions, the Selected Employee may accept the award by delivering to the Company a duly completed form of acceptance within the acceptance period specified in the said letter of grant, failing which such Selected Employee shall not become entitled to any Shares pursuant to that Award.

DIRECTORS' REPORT

SHARE AWARD SCHEME – CONTINUED

Vesting Limit

The total number of awarded shares to be vested in all Selected Employees in respect of each financial year shall not exceed 5 million Shares.

Unless otherwise determined by the Remuneration Committee and approved by the Board, the number of awarded shares to be granted to the Selected Employees in respect of each financial year shall be subject to the following ratio:

Executive Directors	60% ("Ratio A")
Non-executive Directors	10% ("Ratio B")
Other Employees (excluding the executive Directors and non-executive Directors)	30% ("Ratio C")

provided that in the event that any non-executive Director (including any independent non-executive Director) has notified the Company of his/her intention not to participate in the Scheme in respect of any financial year(s), (i) Ratio B in respect of any relevant Financial Year shall be reduced to such percentage and Ratio C in respect of such year shall be increased to such percentage as determined by the Remuneration Committee and approved by the Board from time to time, and (ii) Ratio A in respect such year shall remain at 60%, unless otherwise determined by the Remuneration Committee and approved by the Board.

The Scheme does not constitute a share option scheme and no new share of the Company will be granted under the Scheme accordingly. Instead, the vesting periods of the awards under the Scheme are stated in the table of the movements in the number of awarded shares outstanding during the year 2023 which are set out in the note 33 to the consolidated financial statements.

In year 2023, no amount was payable on application or acceptance of award.

As at the date of this report, the vesting periods for different batches of granted and unvested restricted shares were different, ranging from 22 August 2019 to 31 March 2027.

Remaining life of the Scheme

Subject to terms of the Scheme Rules, the Scheme shall be valid and effective for a period commencing on the Adoption Date and ending on the date to be determined by the Board from time to time, after which no further award will be made but the provisions of the Scheme shall remain in full force and effect to the extent necessary to give effect to any awards granted prior thereto or otherwise as may be required in accordance with the provisions of the Scheme.

For details of the Scheme, please refer to the announcement of the Company dated 18 September 2009.

Notes:

1. Mr. Liu Jinlan, Mr. Liu Xiang, Mr. Tao Jinxiang, Mr. Zhang Yuxiao and Mr. Hang Youming ("Five Parties") entered into an agreement dated 29 August 2005 (as supplemented by supplemental agreements dated 15 November 2005 and 29 November 2022) in relation to the beneficial interests in Great Trade Limited, In-Plus Limited, Perfect Sino Limited, Power Aim Limited and Wise Creative Limited (the "Five BVI Companies") (the "Five Parties' Agreement"). Pursuant to the Five Parties' Agreement, (i) the interests and rights of the Five BVI Companies and the interests and rights in the Shares held by the Five Parties through the Five BVI Companies are held by the Five Parties for their own benefit and for the benefit of the other members ("ESC Members") of 江蘇興達鋼簾線股份有限公司職工持股會 (Employee Shareholding Committee of Jiangsu Xingda Steel Tyre Cord Co., Ltd.*) (the "Employee Shareholding Committee") from time to time (including the Five Parties as at the date of this report) with reference to the proportion set out in the Five Parties' Agreement and as amended from time to time; and (ii) to the extent any Shares were acquired by any of the Five Parties and/or the Five BVI Companies using the funds provided by such member of the Five Parties on or after 30 August 2005, such acquired Shares (together with all rights and benefits accruing and attaching thereto) shall be for the benefit of such member of the Five Parties only.

On 29 November 2022, the Five BVI Companies, the Five Parties, Widen Success Holdings Limited ("Widen Success") and Mr. Liu Tao entered into an agreement (the "AIC Agreement"), pursuant to which the parties agreed, confirmed and acknowledged that in respect of all the Shares held by the Five BVI Companies, the Five Parties, Widen Success and Mr. Liu Tao from time to time, whether for their own benefit or for the benefit of the other ESC Members, they shall reach a consensus before voting on any of the matters to be resolved at the general meetings of the Company and shall vote unanimously on the resolutions proposed at the general meetings of the Company. Mr. Liu Tao further agreed and confirmed that he shall agree with Mr. Liu Jinlan when reaching a consensus among the Five Parties and himself. The AIC Agreement took effect on 10 March 2023, being the final settlement date for the conditional voluntary cash partial offer made by CLSA Limited on behalf of the joint offerors to the qualifying shareholders to acquire a maximum of 80,000,000 offer shares of the Company as disclosed in the composite document dated 27 January 2023 jointly issued by the relevant joint offerors and the Company.

The Company was informed that (i) Mr. Tao Jinxiang, Mr. Zhang Yuxiao, Perfect Sino Limited and Power Aim Limited had unilaterally terminated the AIC Agreement with effect from 5 January 2024 by giving a termination notice to the other parties; and (ii) a party to the AIC Agreement has thereafter taken legal actions against Mr. Tao Jinxiang and Mr. Zhang Yuxiao in respect of the said termination. The Company will make further disclosure(s) to keep its shareholders and potential investors informed of any updates as and when appropriate.

2. Mr. Liu Jinlan held 49,039,275 shares in his own name as at 31 December 2023. Mr. Liu Jinlan held as to 100% of the issued share capital of Great Trade Limited for his own benefit and for the benefit of other ESC Members according to the terms of the Five Parties' Agreement. As at 31 December 2023, Great Trade Limited held 329,104,883 shares in the Company. For the purpose of Part XV of the SFO, Mr. Liu Jinlan was deemed to be interested in the shares held by Great Trade Limited. Mr. Liu Jinlan was also a party to the AIC Agreement, and was deemed to be interested in the shares in which the other parties to the AIC Agreement (being Mr. Liu Xiang, Mr. Tao Jinxiang, Mr. Zhang Yuxiao, Mr. Hang Youming, Mr. Liu Tao, Five BVI Companies and Widen Success Limited) were interested for the purpose of Part XV of the SFO. Please refer to Note 1 above for details. Further, Mr. Liu Jinlan is a grantee under the share award scheme of the Company adopted on 4 September 2009 ("Share Award Scheme"). Upon fulfilment of the relevant vesting conditions and assuming all shares of the Company ("Shares") awarded under the Share Award Scheme ("Award Shares") granted to him are vested in full, Mr. Liu Jinlan will become interested in a further 5,425,000 Shares.

EMOLUMENT POLICY

The emolument policy of the employees of the Group is set up by the Human Resources Department on the basis of their merit, qualifications and competence and reviewed by the executive Directors. The Company operates a share award scheme, details of which are set out in note 33 to the consolidated financial statements.

DIRECTORS' REPORT

EMOLUMENT POLICY – CONTINUED

The ordinary remuneration of the Directors is subject to approval by the shareholders of the Company in general meetings. The Remuneration and Management Development Committee (the "Remuneration Committee") comprising two independent non-executive Directors has been established to make recommendations to the board of Directors on the Group's policy and structure for all remuneration of Directors and senior management of the Group. The Remuneration Committee will consult the chairman of the board of Directors in respect of their recommendations in determining the remuneration of the Directors and senior management of the Group. No individual Director would be involved in deciding his/her own remuneration.

In determining or recommending the remuneration packages of the Directors and senior management, the Remuneration Committee should consider factors such as salaries paid by comparable companies, time commitment and responsibilities of the Directors and senior management, employment conditions elsewhere in the Group and desirability of performance-based remuneration. In reviewing and approving performance-based remuneration, reference will be made by the Remuneration Committee to the Group's corporate goals and objectives resolved by the board of Directors from time to time.

The recommended remuneration package comprises salaries, directorship fees, bonuses, discretionary bonuses, benefits in kind, pension rights and compensation payments, and any compensation payable for loss or termination of office or appointment.

HIGHEST PAID INDIVIDUALS

The relevant information of the five individuals with the highest remuneration in the Group for the year ended 31 December 2023 is disclosed in note 13 to the consolidated financial statements.

MAJOR CUSTOMERS AND SUPPLIERS

The five largest customers of the Group contributed approximately 30% of the Group's total revenue and the largest customer contributed approximately 9% of the Group's total revenue for the year ended 31 December 2023. The five largest suppliers represented approximately 91% of the Group's total purchases and the largest supplier represented approximately 53% of the Group's total purchases for the year ended 31 December 2023.

None of the Directors, their close associates or any shareholders of the Company which, to the knowledge of the Directors, owned more than 5% of the Company's issued share capital, had any interest in any of the five largest customers or suppliers of the Group.

DIRECTORS' REPORT

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Company's Articles of Association or the laws of the Cayman Islands, which would oblige the Company to offer new shares on a pro-rata basis to existing shareholders.

SUFFICIENCY OF PUBLIC FLOAT

Based on the information that is publicly available to the Company and within the knowledge of the Directors as at the date of this annual report, the Company has maintained a sufficient prescribed public float under the Listing Rules.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE PRACTICES

To promote high level of transparency, accountability and independence in the interests of the shareholders, the Company is committed to maintaining high standards of corporate governance.

The Company has applied the principles in and complied with the Corporate Governance Code contained in Appendix C1 to the Listing Rules throughout the year ended 31 December 2023, except for the following:–

Code provision C.2.1 provides, among other things, that the roles of chairman and chief executive should be separate and should not be performed by the same individual. The chairman of the Board, Mr. Liu Jinlan, provides overall leadership for the Board and takes the lead to ensure that the Board acts in the best interest of the Company. The Company does not have the position of chief executive and the daily operation of the Group is assigned among the executive Directors. In addition to the fact that the responsibilities of the chairman are shared by the remaining executive Directors, the Executive Committee of the Company which has been established for determining, approving and overseeing the day-to-day control over the allocation of the Group's resources also segregates the duties of Mr. Liu Jinlan.

In compliance with the code provisions of the Corporate Governance Code, the Company has set up the Audit Committee, the Remuneration and Management Development Committee and the Nomination Committee, and the Board has been responsible for performing the corporate governance duties as set out in the code provisions.

THE BOARD

Composition and responsibilities

The Board is responsible for formulation and execution of the Company's long term strategies and determination of the direction of future development, setting of financial and operational targets, approval of material transactions and significant investments as well as evaluation of the performance of the senior management. The Board has reserved its decision over the major acquisitions and disposals, annual budgets, interim and annual results, recommendations on directors' appointment or re-appointment, approval of major capital investments and other significant operational and financial matters of the Group. The Board has to act in the best interest of the Company and its shareholders as a whole.

The Board is also responsible for performing the relevant functions set out in the Corporate Governance Code, including developing and reviewing the policies and practices on corporate governance of the Group and making recommendations to the Board, reviewing and monitoring the Group's policies and practices on compliance with legal and regulatory requirements, reviewing and monitoring the code of conduct and compliance manual applicable to the Directors and employees, reviewing and monitoring the training and continuous professional development of Directors and senior management, and reviewing the Company's compliance with the Corporate Governance Code (as applicable) and disclosures in the Company's corporate governance report. The Board, under the leadership of its chairman, adopted appropriate efforts and measures to ensure the Company's corporate governance policies and practices, training and continuous professional development of the Directors and company secretary are in compliance with the code provisions of the Corporate Governance Code.

CORPORATE GOVERNANCE REPORT

THE BOARD – CONTINUED

Composition and responsibilities – *Continued*

In addition to providing sufficient time and attention to the affairs of the Group, all Directors disclosed to the Company the number and nature of the offices held in other public companies and updated the Company on any subsequent changes in a timely manner.

The Board currently comprises eight members, including six executive Directors and two independent non-executive Directors. The executive Directors are Mr. Liu Jinlan, Mr. Liu Xiang, Mr. Zhang Yuxiao, Mr. Hang Youming, Mr. Wang Jin and Ms. Wang Yu. The independent non-executive Directors are Mr. Koo Fook Sun, Louis and Ms. Xu Chunhua. The biographical details of the Directors are set out on pages 16 to 19 of the annual report. Mr. Liu Jinlan, being the chairman of the Board and an executive Director, is the father of Mr. Liu Xiang, an executive Director and the father-in-law of Mr. Hang Youming. Save for the aforesaid, there is no financial, business, family or other material or relevant relationships among the members of the Board.

Following the resignation of Mr. Luo Tiejun as an independent non-executive Director on 3 April 2024, the Company has not been in compliance with (i) Rule 3.10(1) of the Listing Rules, which stipulates that the Board must include at least three independent non-executive directors; (ii) Rule 3.10A of the Listing Rules, which stipulates that the number of independent non-executive directors shall represent at least one-third of the Board; and (iii) Rule 3.21 of the Listing Rules, which stipulates that the audit committee must comprise a minimum of three members. The Company is in the process of identifying suitable candidate(s) to fill the vacancy, and will use its best endeavors to ensure a suitable candidate to be appointed as soon as practicable and within three months from the resignation of Mr. Luo Tiejun. The Company will make further announcement(s) in relation to the appointment of new independent non-executive Director(s) as and when appropriate in accordance with Listing Rules.

The executive Directors are responsible for business management of the Group, formulation and implementation of business strategies, daily business decision and co-ordination of overall business operation. Mr. Liu Jinlan and the other three executive Directors, Mr. Liu Xiang, Mr. Zhang Yuxiao and Mr. Hang Youming, have many years of experience in the radial tire cord manufacturing industry.

The independent non-executive Directors, who possess wide expertise, bring relevant experience and knowledge in various aspects to the Board. The Company has received confirmation from each independent non-executive Director about his/her independence as set out in Rule 3.13 of the Listing Rules and considers each of them to be independent. One of the independent non-executive Directors possesses appropriate professional qualifications in accounting or related financial management expertise as required under the Listing Rules.

A list of directors and their role and function has been uploaded and maintained on the websites of the Company and the Stock Exchange.

The management of the Company shall submit all relevant materials for the discussion in the meeting in advance. Notice convening the meeting shall be sent to the members of the Board or the Board committees at least fourteen days before the Board meeting or no later than seven working days before the date of the Board committee meeting so that they can make necessary arrangement to attend the meeting either in person or by telephone. Documents and all relevant materials required for the meeting shall be sent to the members of the Board or the Board committees at least three days (or other agreed period) in advance, which ensures enough time is given to them to review the documents and get prepared for the meeting.

The matters processed by the Board in the meetings are all recorded and kept pursuant to relevant laws and regulations. All Directors have full access to the minutes and papers of the Board meetings and Board committee meetings and all other relevant information of the Group. Minutes of the Board meetings and Board committee meetings recorded in sufficient detail the matters considered in the meetings and the decisions reached. Draft and final versions of minutes of the meetings of the Board and Board committees are sent to all Directors or committee members for comments and records respectively within a reasonable time after the relevant meeting. The Directors have separate and independent access to the company secretary of the Company at all times for discussion. The Directors are also entitled to receive independent professional advice in performing their Directors' duties at the Company's expenses.

CORPORATE GOVERNANCE REPORT

THE BOARD – CONTINUED

Meetings – *Continued*

During the year, a meeting was held between the Chairman and the independent non-executive Directors. The purpose of the meeting was to discuss the performance of the Board members and the management.

Board independence

The Group has established mechanisms to ensure independent views and input are available to the Board and such mechanisms will be reviewed annually by the Board. During the year, the Board has reviewed the implementation and effectiveness of the following mechanisms:

- a) During the period from 1 January 2023 to 7 June 2023 (both days inclusive), three out of all seven Directors are independent non-executive Directors and during the period from 8 June 2023 to 31 December 2023 (both days inclusive), three out of all six Directors are independent non-executive Directors, which fulfills the requirement of the Listing Rules that at least one-third of the Board members are independent non-executive Directors.
- b) The Audit Committee, Remuneration and Management Development Committee and Nomination Committee consists of certain independent non-executive Directors to ensure their independent views are available in the abovementioned committees.
- c) The Nomination Committee have assessed the independence of all the existing independent non-executive Directors during one of the Nomination Committee meetings held in 2023. No irregularities on the assessment result and it was presented to the Board for reference thereafter.
- d) Except for the assessment from the Nomination Committee, each independent non-executive Director is also required to actively inform the Company Secretary and other Board members as soon as practicable if there is any change in his/her personal particulars that may affect his/her independence.
- e) All Independent non-executive Directors are encouraged to freely express their own personal views in the Board meetings and the relevant Committee meetings which they participate in.
- f) All Independent non-executive Directors are required to submit a written confirmation to the Company on an annual basis to confirm the independence on each of them.
- g) All Independent non-executive Directors are entitled to seek, where necessary, advice from external independent professional bodies at the Company's expense.
- h) A Director (including the independent non-executive Directors) who has material interest in any contract, transaction or arrangement of the Group shall abstain from voting in the Board meetings for approving those contract, transaction or arrangement of the Group.

DIRECTORS' AND AUDITOR'S RESPONSIBILITIES FOR THE FINANCIAL STATEMENTS

The Board acknowledges the responsibilities of overseeing the preparation of the financial statements for the year ended 31 December 2023, which give a true and fair view of the state of affairs of the Group for that year. In preparing the financial statements for the year ended 31 December 2023, the Directors have selected appropriate accounting policies, applied them consistently in accordance with the International Financial Reporting Standards and made judgments and estimates that are prudent and reasonable, and have prepared the financial statements on the on-going concern basis. The statement of the external auditor about their reporting responsibilities is set out in the Independent Auditor's Report on pages 148 to 152 of this annual report.

AUDITOR'S REMUNERATIONS

For the year ended 31 December 2023, the Group paid approximately RMB2,351,000 and RMB1,395,000 to the external auditor in respect of audit services and non-audit services, respectively. The non-audit services provided by the external auditor during the year were mainly for performing review on the interim financial statements of the Group.

RISK MANAGEMENT AND INTERNAL CONTROL

In order to facilitate and implement the risk control effectively, the risk management policies and procedures were designed and approved by the Board. The risk management covers four aspects including strategic, financial, operational and compliance controls. According to the adopted policies, the Board delegated the Audit Committee to assess the risk management and internal control systems on an on-going basis (at least annually) to ensure they are effective, efficient and adequate. The results of the assessment would be passed to the Board for discussion and review.

As at the date of the report, the Audit Committee and Board have assessed the risk management and internal controls of the Group for the year ended 31 December 2023. The Company has engaged an independent professional internal control consultant to assist in assessing, reviewing and improving the Group's internal control on accounting system ("Internal Control Review"). After considering the Internal Control Review report and the actions on the implementation of the Enhanced Computerized Module, both the Audit Committee and the Board consider that the measures recommended by the Company are adequate and sufficient to deal with the findings of the Internal Control Review report and that the Group will formulate an adequate internal control system to meet its obligations under the Listing Rules. The Company is in the process of implementing the Enhanced Computerized Module, and the independent professional internal control consultant has been engaged to conduct a review of the effectiveness of the Enhanced Computerized Module in recognizing sales and transportation expenses. For details, please refer to the announcement of the Company dated 12 April 2023. Save as disclosed, in relation to the assessment on risk management and internal controls of the Group for the year ended 31 December 2023, the assessment result reflects that no significant weakness was found in the risk management system and internal control system of the Group and the risk management and internal control systems are effective and adequate.

CORPORATE GOVERNANCE REPORT

RISK MANAGEMENT AND INTERNAL CONTROL – CONTINUED

The Board acknowledges that it is responsible for the Group's systems of internal control and risk management and reviewing their effectiveness, and is committed to the ongoing development of an effective internal control system to safeguard assets against unauthorized use, to ensure the maintenance of proper accounting records for the provision of reliable financial information and to enhance risk management and compliance with applicable laws and regulations. The Group has adopted a set of internal control procedures and policies to safeguard the Group's assets and to ensure the reliability of financial reporting. The internal control systems are designed to ensure that the financial and operational functions, compliance control, asset management and risks management functions are in place and are functioning effectively. In order to monitor the systems effectively, the Group established an internal audit department in January 2007. The internal audit department is responsible for performing regular reviews on the internal control systems of the Group to provide reasonable assurance on the effectiveness, soundness, adequacy and completeness of the Group's internal control systems.

In addition to the internal audit department, the Group also engaged an independent professional body to assist in assessing and reviewing the Group's internal control system on a regular basis with an aim to ensure sufficient resources are employed and people with adequate qualification and experience take part in the internal control systems review. The Board will continue to conduct reviews on the internal control systems and will take all necessary measures to safeguard the Group's assets and the interests of shareholders, customers and employees.

Process used to identify, evaluate and manage significant risks

The first step of the risk assessment process is that the responsible personnel of the operating units should be responsible to ascertain and identify the risk events relating to the operating units from the perspective of the different risk categories. After that, the identified risks would be ranked and classified to different risk levels where reference would be made to the potential impact upon the Group and the likelihood of occurrence of the risk concerned. Those identified risks with different risk levels are recorded in the risk register. The well-defined risk monitoring plan with detailed steps of action and timing of implementation clearly stated is designed by the responsible personnel of each operating unit and then finally submitted to the Board for review and approval.

Main features of Risk Management and Internal Control Systems

The establishment of a risk register is the main feature of the risk management and internal control systems of the Group. The risk register is used to record the identified risks for the management to keep track and evaluate on such risks. The responsible personnel of the operating units regularly update the risk register and risk monitoring plan on an on-going basis to ensure that all key risks faced by the Group are effectively handled by the Group. The internal control systems and procedures would also be regularly evaluated by the Audit Committee and the Board to ensure that the identified risks are handled in an efficient manner.

CORPORATE GOVERNANCE REPORT

RISK MANAGEMENT AND INTERNAL CONTROL – CONTINUED

Main features of Risk Management and Internal Control Systems

The Group adopted an ongoing risk assessment approach to identify and assess the key inherent risks that affect the achievement of its objectives. The assessment of risks level refers to the likelihood of occurrence of the risk concerned and the potential impact upon the Group. The likelihood of risk occurrence which can be classified into five classes including: Rare (1), Unlikely (2), Possible (3), Likely (4) and Almost Certain (5). The potential impact upon the Group can be classified into five classes: Insignificant (1), Minor (2), Moderate (3) Major (4) and Catastrophic (5). Based on different levels of likelihood of occurrence of the risk concerned and the potential impact upon the Group, the Group would decide on the level of attention and effort required to monitor the identified risks.

Risks handling approach

All business units are obligated to design the risk monitoring plans and to carry out the actions required to avoid/mitigate/transfer the risks in accordance with the priority list of the risks identified and assessed. The Board acknowledges that the risk management and internal control systems of the Group are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

Process used to review the effectiveness of the Risk Management & Internal Control Systems and to resolve material internal control defects

In order to comply with the code provision D.2 of the Corporate Governance Code, the enterprise risk assessment and internal control systems review are conducted by the Group during the year ended 31 December 2023. The four aspects of risk assessment and control systems including strategic, financial, operational and compliance are reviewed by Audit Committee and Board. Save as disclosed in this annual report, both the Audit Committee and the Board are satisfied that there has been no major and significant deficiency nor defects noted in the areas of the Group's risk management and internal controls systems. The Board considered that the effectiveness of both risk management system and internal control system are ensured.

Procedures and internal controls for the handling and dissemination of inside information

The Company established the Policy and Procedures on Disclosure of Inside Information in order to handle and disseminate inside information. The Policy and Procedures on Disclosure of Inside Information provided the guidelines on:

1. the officers' obligations;
2. preservation of confidentiality of inside information before it is fully disclosed to the public;
3. handling of media speculations, market rumours and analysts' report;
4. circumstances that disclosure is prohibited;

The officers are required to notify the Executive Committee about any possible inside information which will in turn notify the Board as soon as reasonably practicable to decide on the appropriate prompt actions that should be taken with the aid of the legal advice provided by the independent legal adviser.

MODEL CODE FOR SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix C3 to the Listing Rules as the code of conduct regarding Directors' securities transactions. After having made specific enquiry with all Directors, the Company has received confirmations from all Directors that they have complied with the required standards set out in the Model Code during the year ended 31 December 2023.

The Company has also adopted procedures on terms no less exacting than the Model Code in respect of the securities transactions of the employees who are likely to be in possession of unpublished inside information.

COMMUNICATIONS WITH SHAREHOLDERS AND INVESTORS RELATIONS

The Company values its relationship with investors and shareholders and communications with them is a high priority. The Company announces interim and annual results as early as possible to update shareholders of the Group's financial performance in a timely manner. Apart from that, the Company has assigned its chief financial officer and the manager of investment department to be the spokespersons of the Company and be responsible for meeting with financial analysts and institutional investors.

In addition to the annual general meeting which is opened to all shareholders and members of the press, the Company holds analysts briefings through various channels to maintain communications between the shareholders and the management of the Company. During the year ended 31 December 2023, the management conducted numerous one-on-one meetings with various institutional investors and shareholders to assist them to have a better understanding of the Group as well as the global steel cords industry through publicly disclosed information. Comments and advice from the investors were communicated to the management for providing responses in a timely manner. In order to strengthen the communication and interaction with the investors, the Company will continue to focus on enhancing communications with investors through various means by organizing non-deal roadshows, company visits and meetings in the future to ensure the shareholders' communication implementing effectively.

CORPORATE GOVERNANCE REPORT

COMMUNICATIONS WITH SHAREHOLDERS AND INVESTORS RELATIONS – *CONTINUED*

On 8 June 2023, the Chairman of the Board, as well as Chairman or member of each of the Board Committees, attended the annual general meeting to answer any questions raised by the shareholders. During that day, the external auditor was also available to answer any questions from the shareholders about the conduct of the audit, the preparation and content of the auditor's report, the accounting policies and the auditor's independence.

In order to promote effective communication with the public including investors and shareholders, the Company also maintains a website to disclose comprehensive information including the company presentations, press releases, announcements, circulars and annual and interim reports. The address of this website is <http://www.irasia.com/listco/hk/xingda/index.htm>.

The Board assessed and reviewed the implementation and effectiveness of the shareholders' communication policy of year 2023. The Board considered that the communication policy was conducted properly and effectively given that sufficient and effective communication channels were provided to the investors and shareholders respectively.

ESG Management Mechanism – *Continued*

The Board of Directors, as the highest decision-making body for the Group's sustainable development and ESG management, is responsible for monitoring and evaluating the effectiveness and ensuring sound and good ESG governance. Its main responsibilities include, but are not limited to:

- Approving and monitoring the Group's policies, strategies, priorities and objectives for sustainability and ESG management.
- Ensuring that appropriate and effective mechanisms for sustainability and ESG management and internal control systems are in place.
- Reviewing the disclosures in the Group's sustainability and ESG reports.
- Reviewing the performance of the Group in relation to the sustainability and ESG objectives on a regular basis.

The Sustainable Development Committee operates under the authority of the Board of Directors, and is headed by the Executive Director of the Board of Directors and the President of the Group. It is responsible for leading the Group's work on sustainability issues, and ensures the importance of sustainability in the Group's business management. The duties of the Sustainable Development Committee include, but are not limited to:

- Setting the Group's strategic goals for sustainable and high-quality development and ESG, and reporting regularly to the Board of Directors on progresses towards the goals.
- Identifying and assessing sustainability and ESG-related risks and opportunities, and carrying out corresponding actions.
- Facilitating the implementation of sustainability and ESG policies and measures across divisions and working groups.
- Managing and supervising the Group's greenhouse gas (GHG) emissions inventory, developing key indicators for quantitative management, and responding to third-party certified assessment or audit bodies, such as the CDP Climate Change Questionnaire.

Stakeholder Communication

The Group is committed to establishing a communication mechanism with various stakeholders. The stakeholders are defined as individuals or groups that affect or are affected by the Group's operational activities, and include exchanges and governments, investors and shareholders, suppliers, customers, employees, communities and the public. The Group communicates with stakeholders through websites, media, conferences, reports, events, and other channels to understand and respond to their expectations and demands, and incorporates substantive issues of concern to stakeholders into the Group's operations and decision-making processes, so as to improve the Group's operational and management capabilities and sustainable development capabilities.

Anti-corruption and Bribery – Continued

The Group encourages employees to actively declare their interests. If employees have conflicts of interest comply with the *Employee Business Ethics Code*, they should report to the company to avoid conflicts of interest.

The Group has established a complete whistleblower protection mechanism, prohibiting retaliation against whistleblowers to protect their safety and interests. The Group strictly prohibits the disclosure of names, departments, company names and other information of whistleblowers; and the original or copies of materials for whistleblowing shall not be presented during the investigation and verification. If there is any employee who leaks the information of whistleblowers or takes retaliation against them, the Group will terminate the labor contract with the employee depending on the severity of the case. For those who violate the law, they will be transferred to judicial organs for punishment.

In 2023, the Group conducted three anti-corruption training sessions which involved 1,360 employees, including members of the Board of Directors, and the total hours of anti-corruption training received by employees amounted to 3,264.

In 2023, there was no corruption lawsuit filed and concluded against the issuer or its employees, nor any case arising therefrom.

Environmental Responsibility

Environmental Management System

The Group actively identifies the impact of its business activities on the environment. After China set goals to achieve peak emissions by 2030 and carbon neutrality by 2060, it has become the responsibility of industrial enterprises to protect the ecological environment and realize energy saving and carbon reduction. Based on its environmental policy of “protecting the blue sky and creating a green world”, the Group has formulated four commitments to environmental protection, made vigorous responses and took actions to integrate environmental protection and green low-carbon development into the entire process of product development, production and operation.

Four Commitments for Environmental Protection

- Complying with national and local environmental protection laws and regulations
- Striving to achieve continuous improvement of environmental management system and related behaviors
- Following the prevention-oriented philosophy and gradually reducing the use of hazardous materials
- Combining prevention and treatment to minimize abnormal emission of pollutants per unit of product

The Group has production bases in China and Thailand, and strictly abides by the laws, regulations, and requirements related to environmental management in the place of operation, and has formulated management systems such as *Environmental Management Policy*, *Noise and Vibration Pollution Control Procedure*, and *Air Pollution Prevention and Control Management Procedure*. In 2023, the Group updated its management systems including *Wastewater Discharge Management Procedure*, *Solid Waste Management Procedure*, *Waste Gas Emission Management Procedure* and *Hazardous Waste Management Procedure*, and further specified relevant management responsibilities and requirements. All manufacturing bases of the Group have passed ISO 14001:2015 environmental management systems certification as well as the review during the reporting period.

Each manufacturing base of the Group carries out risk assessment of environmental events, prepares corresponding emergency plans, establishes and improves long-term working mechanisms for environmental risk prevention and control, and effectively reduces regional environmental risks. All these bases have formulated *Risk Assessment Report on Environmental Emergencies*, *Environmental Emergency Resource Investigation Report*, *Emergency Response Plan for Environmental Incidents*, as well as special plans and on-site disposal plans, which have all been registered with the competent ecological and environmental authorities. Xingda Thailand engages a third-party agency to conduct environmental impact assessments twice a year to ensure timely monitoring of environmental risks, and organizes regular training and drills.

In 2023, the Group carried out targeted environmental training for all employees, covering topics such as environmental laws and regulations, environmental awareness and procedure for discharge. Moreover, in order to improve environmental management skills of the company's professionals dedicated to environmental protection and the management, the Group cooperated with professional institutions to provide two external training sessions which mainly covered topics such as environmental laws and regulations, management of discharge permits, prevention and control of soil pollution and the obligations of the enterprise in environmental compliance. The Group's representatives attended the hazardous waste management training program provided by the Department of Ecology and Environment of Jiangsu Province, and obtained the training certificate recognized by the department.

In 2023, the Group had no confirmed violations of environmental protection related laws and regulations.

Energy Management

The Group is committed to becoming a resource saving and environmentally friendly enterprise. The main types of energy consumed by the Group in the production process include electricity, natural gas and diesel fuel. The Group sets energy consumption targets based on the requirements of the ISO 50001 energy management certification system and national energy policies.

Energy consumption target

- By 2025, the Group's energy consumption per unit of product will decrease by 14% compared to 2020

Thailand	<i>Energy Conservation Promotion Act, B.E. 2535 (1992), and Energy Management Criteria B.E. 2552 (2009), etc.</i>

In terms of energy management, the Group has developed systems such as *Energy Management System, Energy Conservation Management System, and Implementation Rules for Daily Energy Conservation Supervision*, and established energy measurement management. In 2023, Taizhou Xingda obtained ISO 50001:2018 energy management system certification for the first time, and Jiangsu Xingda passed the annual audit of the system certification.

The Group promotes energy audit, and identifies energy conservation items that need to be improved through accepting audits from customers and external third parties. While improving these items step by step, the Group has also strengthened training on energy conservation awareness among employees to improve management energy efficiency.

Completed the construction of the 9MW rooftop photovoltaic power generation project whose average annual power output reaches about 8.3 GWh. Renovated 400 energy-efficient motors, saving about 670 MWh of electricity per year. Completed the energy-saving renovation of permanent magnet synchronous motors for 54 sets of coarse and medium continuous wire drawing machines, saving about 2.42 million kWh of electricity annually.

Conducted the energy-saving renovation of 3 electroplating open-fire furnace waste heat recovery and utilization systems, saving about 4,816 tons of steam annually. Upgraded 164 sets of permanent magnet synchronous motors for the wet drawing process, saving about 430MWh of electricity per year.
Thailand Base	<ul style="list-style-type: none"> Enabled the start-stop control of the circulating pump for coarse and medium continuous wire drawing machines. In this way, the 45kW circulating pump for coarse and medium continuous wire drawing machines would be shut down when a monthly output lower than 7,000 tons, and water supply would be enabled by pressure difference, thereby reducing the electricity cost and saving about 230 MWh of electricity per year. Optimized the intermediate-frequency circulating pump and replaced the high-power pumps with low-power pumps, hereby reducing power loss and saving about 60 MWh of electricity annually. Optimized the circulating pump for air compressors, and applied the temperature-based frequency conversion control method instead of power frequency change, thereby reducing power loss and saving about 55MWh of electricity annually.

Water Resources Management

The water sources used by the Group in its production are mainly surface water, groundwater and public water supply. The Group complies with the policy and management requirements of the relevant countries and regions in obtaining suitable water sources with no impact on local surface water or groundwater.

The Group strictly complies with laws and regulations related to water resources management, improves the comprehensive water resources management mechanism from all aspects, and establishes and enhances the water cycle system. The Group sets water resource utilization efficiency targets, and provides employee training on water-saving related rules and regulations.

Reinforced water saving and emission reduction in the whole process, and reused of some wastewater discharged from production equipment, thereby reducing the use of fresh water. Reduced the discharge of clean wastewater by recycling the clean wastewater discharged from public facilities. Cooperated with Jiangsu Xingda Sewage Station to decrease the sewage discharge of Taizhou Xingda. Stopped using industrial water in high-pressure water rinsing (pretreatment), and applied recycled water in rinsing, recovery and recycling.

Raw Material and Packaging Management

The main packaging materials used by the Group in its production and operation include disc spools, dividers, plastic pallets, cartons, high-pressure bags, desiccants, and packing tapes.

We have a systematic and comprehensive management mechanism for the management of packaging materials. We allocate packaging materials according to the orders of our customers, and then sort and recycle them according to the nature of different materials properties to continuously reduce the quantity of packaging materials used. In 2023, the recycling rates of major packaging materials such as plastic pallets, disc spools and dividers has reached over 88%.

Packaging Material Saving Measures of Each Manufacturing Base in 2023

Manufacturing Bases

Concrete Measures

Jiangsu Base

- Reused laser-welded disc spools and pallets, to reduce the proportion of new ones used.
- Performed strict screening and inspection of packaging materials such as dividers, pallets and boxes, to reduce the use of new materials.
- Repaired plastic pallets using plastic welding, to increase the recycling rate and reduce the use of new ones.

Shandong Base

- Sorted out returned used packing cartons and removed their original labels before delivering them to different customers, to reduce the use of new packaging materials.
- Dividers were reused.
- Collected and dried desiccants for reuse, to reduce the use of new desiccants.
- Packing tapes were reused after being welded.

Thailand Base

- Collected and dried desiccants for reuse to reduce the use of new desiccants.
- Performed strict screening and inspection of packaging materials such as dividers, pallets, and boxes, to reduce the use of new materials.
- Optimized the recovery and protection of packaging materials, to reduce the pollution and damage caused by improper protection of packaging materials and therefore increase the recycling rate.

Wastewater Management

The Group's wastewater discharges during its operations mainly include production wastewater (including acidic wastewater, electroplating wastewater and lubricant wastewater) and domestic wastewater.

The Group strictly complies with the relevant standards such as the *Emission Standard of Pollutants for Electroplating* (GB21900-2008, Table 2) and the *Control Standards on Wastewater Quality* announced by the Department of Industry, conducts emission management in accordance with the internally developed *Energy and Environmental Protection Management Procedures for Construction Projects* and *Wastewater Discharge Management Rules*, and formulates wastewater pollutant emission targets. Seepage control measures must be taken for the Group's all water transmission and drainage pipes and hazardous waste storage sites to eliminate all kinds of channels for wastewater seepage; accident pools and wastewater treatment areas must be impermeable and leak-proof. Jiangsu Xingda sets up 13 groundwater monitoring points, and Taizhou Xingda 2 groundwater monitoring points, in order to conduct regular monitoring.

All wastewater is collected at the station for treatment and then discharged after meeting the standards. The Group conducts regular monitoring of the main pollutants in wastewater to ensure that no irregular discharge of wastewater occurs. The Group's wastewater is mainly generated at wastewater outlets, and total copper and zinc are monitored daily. For total phosphorus, petroleum, and suspended solids, a third-party testing agency is engaged to conduct monthly testing. Automatic monitoring equipment is installed for the monitoring of pH value, COD and ammonia nitrogen, and the equipment is connected to the network of the environmental protection authority to achieve real-time monitoring. In 2023, the Group upgraded the equipment at the sewage treatment station of Jiangsu Base, and set up new sewage treatment facilities at Shandong Base, to further reinforce its sewage treatment capabilities.

The Group explores the potential of each process and develops measures to reduce resource consumption and wastewater discharge for the whole process. The energy saving and emission reduction departments of the Group's manufacturing bases have been motivated to promote the optimization and renovation of wastewater recycling and treatment systems, and achieved significant results.

Waste Gas Management

The Group's production activities generate emissions from HCl exhaust gas from the pickling process, exhaust gas from natural gas combustion of the open fire furnace, sintering exhaust gas from the solid waste disposal plant, and combustion exhaust gas from the natural gas emergency boiler. The main atmospheric pollutants generated include nitrogen oxides, sulfur dioxide, particulate matter, hydrogen chloride gas and soot.

The Group complies with relevant laws and standards such as the *Law of the People's Republic of China on the Prevention and Control of Atmospheric Pollution* and the *Integrated Emission Standard of Air Pollutants* (GB16297-1996). The Group has formulated air pollutant emission targets and conducts emission management in accordance with internally developed *Air Pollution Prevention and Control Management Procedures* and *Acid Mist Purification and Treatment Operation Guideline* to clarify the responsibilities of each department and air pollutant disposal procedures; make records as required, and formulated written management documents.

The Group conducts regular internal and external testing of air emissions, and gradually installs additional online monitoring devices to ensure that emission abnormalities can be detected and effectively dealt with in a timely manner, so as to ensure the compliance of exhaust gas emissions. In terms of internal testing, the Group has installed online monitoring devices to monitor hydrogen chloride tail gas in real time for internal management. The Group has set corporate standards that are stricter than national standards. Once abnormal data is detected, the big data platform immediately pushes early warning messages to the cell phone of relevant personnel to ensure timely response. In terms of external testing, the Group regularly commissions a third-party testing agency to conduct tests on various types of exhaust vents. In 2023, all internal and external testing results were satisfactory.

In 2023, the Group upgraded the pickling waste gas purification facilities at each of its bases, and implemented the process of “water absorption for Level 1 + alkali spraying for Level 2 & 3”, to increase the proportion of reused acid and lower the concentration of emissions at the end. In addition, the Group implemented targeted emission reduction measures based on the specific conditions of each base. By promoting the waste heat recovery and utilization renovation of heat treatment process, Jiangsu Base achieved the self-sufficiency of steam in the operation line, thereby reducing the operation time of the gas fired boiler and lowering the waste gas discharge. Shandong Base newly introduced the waste gas collection and treatment facilities in the hazardous waste room to reduce the discharge of unorganized waste gas.

Waste Management

The main hazardous wastes generated by the Group in the production process include pickling sludge, surface treatment sludge, waste hydrochloric acid, waste machine oil, waste lead batteries, electroplating sludge, waste emulsion, and auxiliary packaging materials. The general wastes generated include production wastes such as iron scraps, waste steel wires, waste equipment, waste accessories, waste packaging materials, and waste workwear, as well as domestic wastes generated from daily activities.

Solid Waste Discharge Targets

- No solid waste is discharged in the Group. Ensure the stable operation of hazardous waste self-recycling projects to achieve minimized harmless and optimized utilization.
- Except self-recycling projects, other solid wastes need to be entrusted to qualified organizations for proper disposal in accordance with laws and regulations.

The Group has formulated the *Solid Waste Management Process* to clarify the definition of waste and departmental responsibilities as well as waste disposal and management methods, kept records as required, and formulated the written management documents such as *Solid Waste Temporary Storage and Disposal Form*. The Group never allows the illegal outflow of the wastes from any channel, which poses a potential threat to the environment and the community.

The Group's general industrial solid wastes are recycled for reuse, and domestic garbage is regularly cleaned up by the sanitation department. The Group's hazardous wastes are entrusted to qualified organizations for disposal and utilization, except pickling sludge and waste hydrochloric acid for which the company has built its own utilization project.

The Group has increased investment in environmental protection and management facilities, equipped itself with corresponding environmental protection and pollution control facilities while investing in production lines, and introduced new technologies and equipment to reduce the generation of solid waste.

Governance

The Group has actively paid attention to the trend of global climate change, and set up the Green Vanguard Team under its Sustainable Development Committee as a management facilitator for the issue of climate change, which is responsible for identifying risks and opportunities related to climate change and continuously improving management measures based on findings to minimize the carbon footprint of our operations.

Strategy

The Group has formulated a clear management strategy to address risks and opportunities arising from climate change through development and use of clean energy and regular information disclosure and communication.

In terms of developing and using clean energy, the Group plans to take the use of clean energy into consideration during the construction and renovation of plants to further expand the proportion of renewable energy use and speed up the transformation to low-carbon energy consumption.

In 2023, the Group continued to promote the construction of the solar photovoltaic power generation system, raising the total installed capacity to 15MW. In addition, the Group conducted the energy-saving renovation of energy efficient motors and permanent magnet-driven motors. It also put waste heat recovery and utilization systems into operation for open-fire furnaces used in the electroplating production line, thus to lower the greenhouse gas (GHG) emissions. The Group also attaches great importance to digital technology in addressing climate change. In 2023, the carbon emission management platform based on the cloud platform was built, and significantly improved the efficiency of carbon data collection, accounting and analysis.

In terms of regular information disclosure and communication, the Group adheres to the principle of openness and transparency, and regularly discloses carbon emission data in its ESG reports. In addition, the Group also actively communicate with our customers, suppliers and other value chain partners to exchange plans and milestones in low-carbon transformation and GHG emission reduction. Adhering to the principle of sustainability in sustainable procurement, the Group requires suppliers to develop environmental management systems and procedures, and supervises them to continuously reduce their environmental impact, including reducing waste generated, the use of non-renewable energy and water and energy consumption.

Risk Management

The basis for climate issue management is to identify risks and opportunities associated with climate change. Climate change issues are closely related to GHG emissions. The Group identifies, assesses, and analyzes risks and opportunities to make clear key climate change risks and opportunities related to its operations, and continuously improves management accordingly to minimize the impact of its operational activities on climate and the environment.

In terms of climate risks, the Group identifies policy and legal risks, reputational risks and severe natural factors. In terms of climate-related opportunities, the Group identifies market opportunities as well as opportunities for technological development and resource efficiency. Based on the key climate-related risks and opportunities identified, the Group assesses the potential operational and financial impacts, and plans to incorporate climate-related risks and opportunities into its overall risk management system.

Financial Impact Analysis of Climate-Related Risks

Type	Level	Description	Potential Financial Impact
Policy and Legal Risk	High	Xingda uses mainly natural gas, electricity and diesel fuel. With the rising importance of GHG emissions at home and abroad, relevant laws and regulations have been introduced including China's <i>Measures for the Administration of Carbon Emissions Trading (Trial)</i> and the draft regulations of the EU on carbon border adjustment mechanism (CBAM). Hence, the cost of Xingda's energy use and GHG emissions will increase correspondingly. In addition, changes in pollutant emission standards may expose the Group to compliance risks.	Operating costs ▲ Credit risk ▲
Reputational Risk	Medium	As a company listed on SEHK, Xingda is required by the Exchange to disclose its GHG emission data and emission reduction measures, so such information is available to customers and investors. When the performance is below the expectations of customers and investors, the corporate reputation will be affected.	Operating income ▼ Credit risk ▲
Severe Natural Factors	Medium	An indication of severe natural factors is that extreme weather is frequent and more intense happens more frequently and intensely. Extreme weathers such as typhoons and floods may lead to production safety accidents or forced suspension. The production capacity of Jiangsu and Thailand bases is more susceptible to be affected by typhoons and floods in summer, which may lower the Group's delivery capacity and increase its cost regarding insurance, delivery default compensation and loss of fixed assets. Target and Performance

The Group actively undertakes the responsibility of addressing climate change. It has developed the GHG emissions reduction objectives in line with the 1.5 degrees Celsius rise goal of the Paris Agreement, and officially passed the review by the Science Based Targets initiative (SBTi) in 2023. Moreover, based on concrete operations, the Group has formulated more detailed objectives for energy consumption intensity, carbon emission intensity and clean energy use, and is committed to achieving carbon neutrality by 2050. The Group responds to the CDP Climate Change Questionnaire every year and obtained an A- rating in the Questionnaire in 2023.

[1] Scope I GHG emissions are calculated with reference to the *Corporate GHG Emissions Accounting Methodology and Reporting Guidelines for Power Generation Facilities* (revised version 2022) and the *Corporate GHG Emissions Accounting Methodology and Reporting Guidelines for Other Industries*.

[2] Scope II GHG emissions were calculated based on the emission factors of the power grid in each region. In the *Online CO2 Accounting System* issued by Jiangsu Provincial People's Government in 2019, the power supply emission factor of Jiangsu Province in 2021, 2022 and 2023 was set as 0.6829 kg/kWh; Shandong Province's power supply emission factor is set as 0.8843 kg/kWh based on the 2012 North China regional grid factor in the *China Regional Grid Average CO2 Emission Factors for 2011 and 2012* issued by China's National Development and Reform Commission. According to the *Power Development Plan of Thailand* released by the Energy Policy and Planning Office on June 30, 2015, the power supply emission factor for Thailand is set as 0.383 kg/kWh.

[3] The Scope III GHG emissions were calculated with reference to the *GHG Protocol: Corporate Value Chain (Scope III) Accounting and Reporting Standard*, which covered purchased commodities and services, capital commodities, fuel and energy-related activities, upstream transportation and distribution, waste generated from operations, business travel, commuting of employees, upstream leased assets, processing of sold products, downstream leased assets and investments.

Product and Service Quality Management

The Group is a professional supplier of rubber reinforcement materials. Our products include steel cord, bead wire and hose wire, etc. Our customers include leading tire and hose manufacturers at home and abroad. We are committed to being a reliable products and services provider. By strictly complying with relevant laws and regulations and ensuring high standards of quality and services, we have been able to continuously enhance customer loyalty and build trustful relations.

List of Applicable Laws and Regulations

Region	Applicable Laws and Regulations
China	<i>Law of the People's Republic of China on Product Quality, Law of the People's Republic of China on Standardization and Rules for the Administration of Industrial Production Licenses, etc.</i>
Thailand	<i>Thailand's Product Liability Act B.E. 2551, Consumer Protection Act, B.E. 2522, etc.</i>

All manufacturing bases of the Group have passed the certification of IATF 16949: 2016 automotive quality management system and ISO 9001:2015 quality management system, and have improved the detailed management mechanism of the product quality testing process in accordance with the management system standards. Jiangsu Xingda has set up the *Inspection Regulations* to clarify the quality control parameters of steel cord, bead wire, hose wire and chemical solutions, as well as the inspection and sampling methods, inspection frequency, and acceptance guidelines of semi-finished products and finished goods.

Taizhou Xingda	Steel wire for rubber hose reinforcement	IATF 16949:2016	March 2025
Shandong Xingda	Steel cord for radial tire	IATF 16949:2016	July 2024
Xingda Thailand	Steel cord for radial tire	IATF 16949:2016	March 2025

The quality of our products is subject to two levels of inspection: self-inspection and sampling inspection. In the case of steel cord products, for example, Jiangsu Xingda's quality inspection covers every process after warehouse entry until the final packing and shipping. After each process is completed, the production department is required to conduct its own inspection before proceeding to the next process. Sampling inspection includes performance inspection by the quality inspector after the back-end process of steel cord production is completed, and the inspection records are compiled into a daily product quality report. The product quality certificate is sent to customers along with the product.

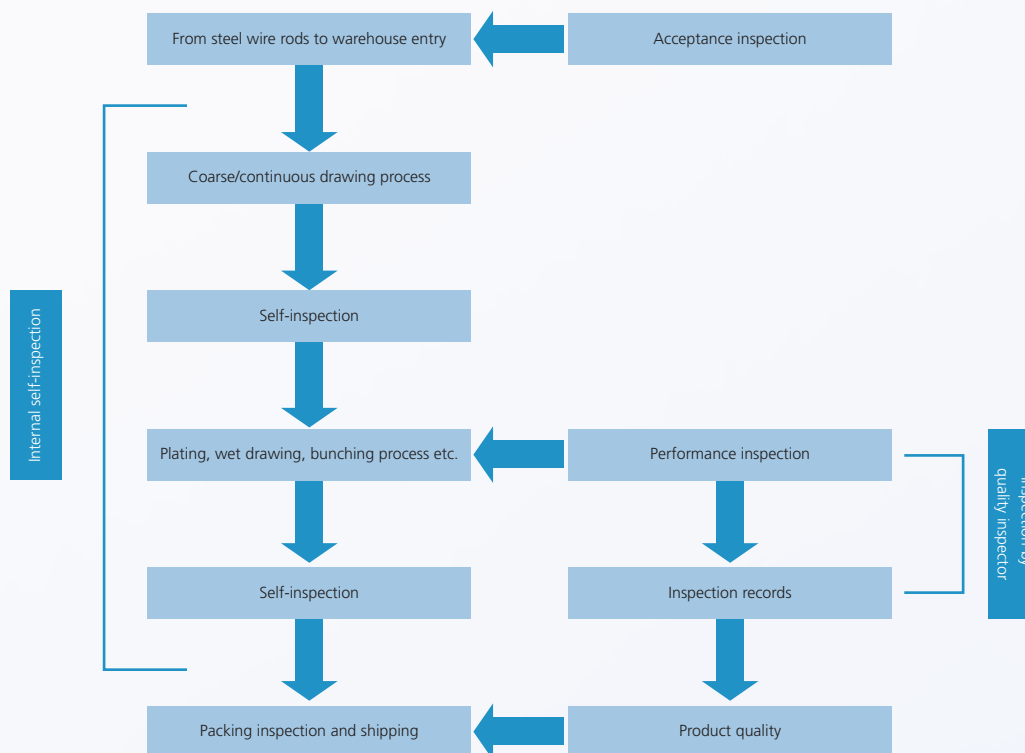

We conduct product quality and safety tests in accordance with the mainstream testing requirements at home and abroad, and conduct RoHS and REACH (Registration, Evaluation, Authorization and Restriction of Chemical Substances) tests on products such as steel cords, bead wires, hose wires and galvanized steel wire, all of which meet the requirements. At the same time, we have also issued safety data sheets (SDS) for steel cord, bead wire, hose wire and other products.

Product Quality Inspection Process

In terms of product quality management, the Group has established the *Quality Manual* as a programmatic document for our minimum requirements for quality management and external quality commitment, which sets out the Group's quality policy and the scope of the quality management system. The Group has established 33 procedural documents, such as *Inspection Regulations*, *Control of Non-conforming Products from Suppliers*, *Control of Process and Final Non-conforming Products* and *Internal Quality Audit*, to standardize production process management and product quality management throughout the product lifecycle. In 2023, the company updated and improved quality management documents including the *Product Audit Management System*, *Product Protection Management Regulations*, *Raw Material Inspection Plan* and *Auxiliary Material Inspection Plan*, and formulated the *Management and Acceptance Regulations for Humidity Indicator for Product Packaging*.

In terms of enhancing employees' quality awareness, the Group held 180 training sessions on quality in 2023, to improve employees' quality management awareness and capabilities, and actively participated in external quality training programs held by customers. In addition, the Group cooperated with a third-party professional agency in organizing the Quality Control Circle (QCC) training. We also attended an external QC project evaluation and won the second prize. The Company's quality self-management model based on "authorization, rules and services" was awarded the Advanced Quality Management Method in the Quality Improvement Outstanding Achievement Competition of Jiangsu Province, Zhejiang Province, Anhui Province, Jiangxi Province and Shanghai.

R&D and Innovation

The Group attaches great importance to R&D innovation, has an excellent technology R&D team and excellent R&D capabilities, and continuously improves process technology based on market demands.

List of Laws and Regulations Related to R&D Innovation

Region	Applicable Laws and Regulations
China	<i>Law of the People's Republic of China on Science and Technology Progress, Patent Law of the People's Republic of China, etc.</i>

Based on national policies and industry development, the Group has developed a sustainable development action plan, with "green products and solutions" as a key focus area. As part of the automotive industry chain, the Group spares no effort to achieve energy conservation, consumption reduction, and material recycling through product innovation, to reduce the impact on the environment throughout the entire life cycle of product production.

As for product design, the Group actively promotes the upgrading of tire cord product strength grades from NT/HT to ST/UT. The upgraded products can help achieve lightweight tires, while ensuring the tire performance uncompromised, so as to improve the fuel efficiency of automobiles and contribute to carbon reduction in the use of downstream products. In 2023, the Group's ST/UT products accounted for 1/3 of the total products sold.

As for product production, steel is one of important raw materials in the production process of the Group. Following the principle of "Reduce, Reuse and Recycle", we strive to gradually increase the proportion of recycled steel in the raw materials for steel cord to achieve a circular economy. Jiangsu Xingda has set goals for the recycling and utilization of raw materials, identified technical difficulties in improving the recycling rate of raw materials, actively promoted strategic cooperation with upstream suppliers, and developed an action plan to gradually increase the recycling rate of raw materials.

Raw Material Recycling Target

- By 2030, the Group's percentage of recycled steel reaches 40%

In 2023, the high-strength fatigue-resistant bead wire for heavy-duty tires was awarded the Provincial Scientific and Technological Achievements Commercialization Project of the Year. The cable-type bead production technology for aircraft tires and ST new-structure steel cord for green tires passed the validation of new technologies and products by the Department of Industry and Information Technology of Jiangsu Province.

The Group has built and launched the Xingda Knowledge Base System to enhance the controllability and traceability of document management. In this system, all internal documents of the Group are encrypted, and hierarchical authority management is implemented for document reading, modification, and downloading. If employees without permission need to use encrypted files, they need to follow the application process for approval. For the security of industrial control system, the Group has isolated the industrial control network and the office network, strengthened the white list control of the internal network, and included the industrial personal computer connected to the internal network of Jiangsu Base in the jump server management, thus to reinforce the security of the industrial control system.

In 2023, Jiangsu Xingda carried out internal audits on information security, and identified relevant risks to improve the effectiveness of the information security control system.

Key points of data and information security management and evaluation:

- Conduct real-time monitoring and early warning for the entire network, perform the penetration test against business servers, and focus on external attack events;
- Sort and integrate asset information, classify and grade assets, and manage asset changes to guarantee the safe operation of assets, and entrust a professional security service provider for remote data hosting security management;
- Perform vulnerability risk management and control, continuous tracking of loopholes and ongoing improvement based on business weaknesses;
- Perform security threat management, security threat detection and response, and external threat response and processing;
- Perform security incident management, continuous detection and response of security incidents.

Data Security and Customer Privacy Protection Highlights

As of December 31, 2023, Xingda International:

- Captured 175,500 cyberattacks;
- Handled 728 malicious programs and 466 weak passwords;
- Fixed 283 vulnerabilities.

For information security protection, the Group has established relevant systems to enhance the exchanges among different departments. The Group makes it clear that employees can communicate through IT management personnel and departments, so that all parties can report information security vulnerabilities and related issues.

In 2023, the Group found no significant violations regarding data or information leakage.

Intellectual Property Protection

The Group's Intellectual Property Management Department has improved the protection and management of intellectual property rights in accordance with the *Measures for the Management of Intellectual Property Rights*, and strengthened the management by setting up confidentiality clauses for employees and providing theoretical and practice-related training for employees of the intellectual property department.

Employment and Labor Practices

Employment

With the employee management policy of “understanding human needs, respecting human values, developing human potential, encouraging human creativity, and promoting common development of employees and the company”, the Group strictly abides by the laws and regulations of China and Thailand on employee employment and international labor conventions, develops systems such as the *Recruitment Management System of Xingda*, the *Management System for Signing Labor Contracts*, the *Management Measures on Prohibition of Employment of Child Labor*, the *Management System on Prohibition of Forced Labor*, and the *Employee Handbook*. These systems clearly stipulate the strict prohibition of child labor and any form of forced labor, and ensure the standardization, fairness, and transparency of the Group’s entire process of employee recruitment, employment, and resignation. Adhering to equal employment, a labor contract is signed with each employee in accordance with the law to protect their legitimate rights and interests.

List of Applicable Laws and Regulations for Employment

Region	Applicable Laws and Regulations

Remedial Measures for Child Labor of the Group

- Stop working immediately;
- Provide a physical examination and treat those who are found to be ill;
- The company assigns personnel to escort them home, or notifies their guardians to pick them up and sign the acceptance letter;
- The cost of escorting child workers back to their original place of residence is fully borne by the company, and support will be provided according to their own situations to help them go back to school till they are 16 years old;
- Be responsible for the treatment of sick or disabled child workers before they are sent back to their original place of residence, and bear all medical and living expenses occurring during the treatment;
- Strictly prohibit irresponsibly dismissal of child workers. Departments or individuals responsible for work-related injuries, disabilities, and deaths of child workers will be put under administrative penalties by labor and social security authorities at or above the district level. If a crime is constituted, criminal liabilities of the department or individual will be investigated by the judicial department.

The Group prohibits any form of forced labor. To avoid any form of forced labor within the Group, the Group irregularly conducts surveys or holds symposiums on each manufacturing base to keep up with whether there is a situation of forced labor. The Group also encourages employees to actively report any actual or suspected forced labor behavior through channels such as e-mail, mailbox, WeChat official account, OA, the Party democratic meetings and the Welfare Committee (Thailand).

The Group adheres to the concept of “equality, openness, competition, and prioritizing” and “internal priority”, and formulates the *Management Regulations on Anti-Discrimination, Anti-Harassment and Anti-Abuse* system to create a diverse, equal, and inclusive workplace environment. The Group follows the policy of equal pay for equal work, ensuring that every candidate and employee are treated equally within the Group regardless of race, gender, age, religious belief, etc. The Group makes efforts to avoid any form of discrimination and prejudice as far as possible in the recruitment process, and actively provides job opportunities for vulnerable groups such as ethnic minorities and people with disabilities.

The Group provides all employees with a legitimate and unimpeded channel and an open and impartial way to receive employee complaints. When employees suffer from discrimination, harassment, etc., they can lodge complaints through the channels designated by the company. The Group will initiate an investigation and handle the complaint in accordance with the relevant procedures. Jiangsu Xingda clearly stipulates the remedial procedures for identified cases of discrimination and harassment in its *Employee Handbook*.

Working hours and vacations

Working hours: The comprehensive working hour system is implemented.

Working overtime: An overtime approval system has been developed. In case of production and operation need, working overtime can only be arranged after reaching an agreement with employees and getting an approval. Meanwhile, measures should be taken as far as possible to control the length of employees' working and overtime hours to ensure their work and life balance.

Vacation: *Management and Leave Management System for Employees* have been developed to ensure that employees enjoy legal holidays in accordance with the law. The company also provides employees with maternity leave, marriage leave, funeral leave, etc.

Employee communication

Communication channels: E-mail, telephone, mailbox, WeChat official account, etc.

Communication methods: Various forms of seminars and exchange meetings will be held from time to time for face-to-face communication between leaders and general employees.

Evaluation Levels

Main Contents and Objectives

Employee educational promotion training

- The Xingda Training Center in Jiangsu has established long-term cooperation with Changzhou University, Jiangsu Agri-animal Husbandry Vocational College, Taizhou Polytech College, etc., to provide further education for employees through junior college and undergraduate programs. In forms of theoretical lectures, online teaching and expert Q&A, employees can learn more knowledge and skills, and obtain academic qualifications of higher levels. By the end of 2023, a total of 1,951 persons has participated in these programs, 664 of which are still in school and 1,287 have graduated.

Professional skill upgrading training

- It includes training on safety, quality, vocational skills, production, and corporate culture, so that business skilled staff gain a better understanding of job responsibilities and improve skills required, to support the development of the company.

Orientation for new employees

- New general employees: Company introduction, orientation, product technology and process training, etc. are provided to new employees to enable them to understand and identify with the corporate culture and job responsibilities, and be qualified for the job requirements as soon as possible.
- College students as new employees: The content includes company introduction, Employee Handbook, Factory Rules and Regulations, From Campus to Enterprise, Company Product Introduction, Steps of Each Production Process, Safe Operation Instructions for Key Process and Positions, Occupational Health and Safety System, Contents on Quality Management System, Company Safety Education and Production Safety Accidents Over the Years, Safety Precautions for Each Process Operation, Quality Awareness and 5S On-site Management. They will also get trained in and visit testing centers and subsidiaries, transition in different process positions, and be assigned to branches, etc. These help them adapt to their jobs as soon as possible.
- New apprenticeship system: In 2023, Xingda College cooperated with Taizhou Polytech College and Taizhou Technician College in launching the new apprenticeship system which adopted the model of comprehensive interaction between campus and enterprise, and successfully improved employees' professional skills. Approximately 300 employees were trained in the new apprenticeship system.

Management training

- Apply for training courses for the Group's management personnel to help them master new information, concepts, and methods.
- Establish friendly cooperative relations with well-known local enterprises, to exchange and learn from each other on an irregular basis about management experience, and pursue win-win results.
- Develop a mobile app client to provide a learning and communication platform for managers.

In 2023, Jiangsu Xingda carried out employee training activities at Xingda Training Center, focusing on corporate culture, safe production, product quality, production operations, management practices, etc. and covering all employees of the company. In 2023, the Group conducted 1,043 training sessions, involving 119,200 participants.

Supply Chain Management

Sustainable Supply Chain

The main types involved by suppliers of the Group include raw and auxiliary materials, equipment, and spare parts. Key suppliers are defined as the suppliers of raw, auxiliary and packaging materials and main equipment. To reduce supply chain risks and create a sustainable supply chain, the Group has developed systems such as the *Sustainable Procurement Policy*, *Supplier Management Regulations*, and *Code of Conduct for Suppliers*, as well as sustainable procurement targets. It has defined specific management processes for different types of suppliers, and incorporated business ethics, environmental protection, labor, and human rights requirements into the management of suppliers, thereby further strengthening the management of suppliers.

Sustainable procurement targets

- To reduce the risks of supply chain brought by ESG-related factors (reputational risk, supply chain risk, etc.);
- To reduce the company's environmental and social impact through sustainable procurement practices;
- To provide sustainable procurement related training for procurement department personnel, covering 100% of procurement department personnel;
- To conduct environmental and social assessment on all key suppliers¹ of the company;
- No procurement and use of conflict minerals.

The Group selects, evaluates, and manages suppliers that provide long-term raw and auxiliary materials, equipment, and spare parts to ensure that they provide products and services that meet the needs. Each subsidiary of the Group conducts supplier management in accordance with the requirements of the Group.

The Group identifies and investigates potential risks through regular supplier audits. The Group assesses major raw and auxiliary material suppliers at least once a year. In 2023, Jiangsu Xingda conducted an audit of key suppliers via spot checks on their certificates, qualifications, equipment conditions, processes, raw materials, product quality, and other aspects, and evaluated their environmental performance, employment compliance, production safety, business ethics, and other ESG performance of all key suppliers according to the *Supplier ESG Evaluation Indicator System* and *Environmental Management Questionnaire*. All investigation results were good.

The Group attaches great importance to the performance of suppliers at the environmental, social and governance levels. The Group has established the *Code of Conduct for Suppliers* which requires all suppliers to focus on their management of business ethics, labor and human rights, health, safety, and the environment, and encourages them to use environmentally-friendly products and services. The Group requires main raw and auxiliary material suppliers to sign the *Anti-Bribery Pledge for Suppliers* to prevent commercial bribery actions and safeguard the legitimate rights and interests of both parties. In 2023, 100% of the main raw and auxiliary material suppliers signed the *Code of Conduct for Suppliers*, the *Anti-Bribery Pledge for Suppliers* and *Environmental Protection and Safety Agreement*.

The Group focuses on improving internal and external supply chain management capabilities and establishes a sound procurement system training and assessment mechanism. For internal sustainable management improvement, the Group provides sustainable procurement training for procurement personnel and warehouse personnel, and incorporates sustainable procurement into the performance evaluation of procurement personnel. The coverage of sustainable procurement training for internal procurement staffs reached 100%. To improve the sustainable management of suppliers, the Group has established a management cycle of "supplier training- supplier self-assessment – review of supplier – continuous improvement". 100% of the key suppliers have been incorporated in the review plan, and accepted online training on sustainable management.

- The Stannum metal used in the products does not originate from areas of war or illegal armed conflicts;
- We are committed to ensuring that conflict minerals do not exist in our supply chain.

The Group requires metals that suppliers provide in their products should not originate from minerals or their derivatives in conflict areas directly or indirectly funded or subsidized by armed groups; and requires suppliers to provide a commitment of non-use of conflict minerals to trace the sources of Aurum (Au), Tantalum (Ta), Stannum (Sn), Cobalt (Co), and Wolfram (W) contained in their products, ensuring that they do not originate from conflicts or conflict-affected and high-risk areas.

The Group incorporates conflict minerals clauses, social and environmental requirements into its Purchase and Sales Contracts with suppliers which explicitly require that all products delivered by suppliers of the Group and its subsidiaries use or contain no “conflict minerals” from the Democratic Republic of the Congo or neighboring countries. In 2023, no suppliers of the Group have violated the *Declaration on Non-use of Conflict Minerals of Xingda International*.

Social Responsibility – CONTINUED

Support Community Development

With a keen eye on the corporate social responsibility of “green, harmonious, honest, and responsible”, the Group strives to become a pacesetter in assuming social responsibilities, and achieves a harmonious relationship between corporate development and fulfilling social responsibility. Our manufacturing bases have established a regular communication mechanism with communities in the regions where we operate, so that we can maintain close contact with them to understand the needs of the local communities and provide assistance in a timely manner.

In terms of community care, Jiangsu Xingda paid a visit to the sanitation workers of Sanitation Office of Dainan County in 2023, and brought them care packages.

As to talent development of the community, the Group sponsored the “Future Craftsman” Industrial Robot Programming and Operation Skills Competition for college students in Taizhou, making a positive contribution to the cultivation of young talents and the promotion of technological innovation.

As for employment needs, the Group takes an active part in the “Pomegranate Employment Action” of Jiangsu Province by offering jobs to ethnic minority groups. In addition, for 13 consecutive years, the Company has hosted the wet drawing and stranding workers’ skill contests of the “10 Major Job Skills Competition” of Xinghua City, and conducted certification of relevant work types for enterprises in and surrounding Xinghua, to support vocational education of the local community.

Charity and Volunteer Service

Regarding staff volunteer activities, the Group organized employees to voluntarily donate nearly 40,000 milliliters of blood in total in 2023.

Independent Verification Statement

To the management and stakeholders of Xingda International Holdings Limited,

TÜV SÜD Certification and Testing (China) Co., Ltd. Shanghai Branch (hereinafter referred to as "TÜV SÜD") has been engaged by Xingda International Holdings Limited (hereinafter referred to as "Xingda" or "the Company") to perform an independent third-party verification on its "2023 Environmental, Social and Governance Report" (hereinafter referred to as "the Report"). During this verification, TÜV SÜD's verification team strictly abided by the contract signed with Xingda and provided verification regarding the Report in accordance with the provisions agreed by both parties and within the authorized scope stipulated in the contract.

This Independent Verification Statement is based on the data and information collected by Xingda and provided to TÜV SÜD. The scope of verification is limited to the given information. Xingda shall be held accountable for authenticity and completeness of the provided data and information.

Scope of Verification

Time frame of this verification:

- The Report contains the data disclosed by Xingda during the reporting period from January 1st, 2023 to December 31st, 2023, including economic, environmental and social related information and data, methods for management of substantial issues, actions/measures and the Company's sustainability performance during the reporting period.

Physical boundary of this verification:

- The on-site verification sampling took place at below listed location, which is, No.88 West Renmin Road, Dainan Town, Xinghua City, Jiangsu Province, China.

Scope of data and information for the verification:

- The scope of the verification is limited to the data and information of Xingda and the enterprises/projects under its operational control covered by the Report.

2023 ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Independent Verification Statement – CONTINUED

Scope of Verification – Continued

The following information and data are beyond the scope of this verification:

- Any information and contents beyond the reporting period of this Report; and
- The data and information of Xingda's suppliers, partners and other third parties; and
- The financial data and information disclosed in this Report that have been audited by an independent third party are not verified again herein.

Limitations

- The verification process is conducted in the above scope and place. Sampling and verification are adopted for the data and information in the Report by TÜV SÜD, and only the stakeholders within the Company are interviewed; and
- The Company's standpoint, opinions, forward-looking statements and predictive information as well as the historical data and information before January 1st, 2023 are beyond the scope of this verification.

Basis for the Verification

This verification process was conducted by TÜV SÜD's expert team with extensive experience in the economic, environmental, social and other relevant areas and drew the conclusions thereof. The verification conforms to the following standards:

- *AA1000AS v3, Type 1 Engagement and Moderate level Assurance*
- *TÜV SÜD Procedure of Verification on Sustainability Report*

In order to perform adequate verification in accordance with the contract and provide limited verification for the conclusions, the verification team conducted the following activities:

- Preliminary investigation of the relevant information before the verification;
- Confirmation of the presence of the topics with high level of materiality and performance in the Report;
- On-site verification of all supporting documents, data and other information provided by Xingda; tracing and verification of key performance information;
- Special interview with the representative of Xingda's management; interviews with the employees related to collection, compilation and reporting of the disclosed information; and
- Other procedures deemed necessary by the verification team.

Independent Verification Statement – CONTINUED

Verification Conclusions

According to the verification, we believe the Report adheres to the requirement of AA1000AS v3.

The verification team has drawn the following conclusions on this Report:

Inclusivity	Xingda has fully identified the Company's internal and external stakeholders, such as stock exchanges and governments, investors and shareholders, suppliers, customers, employees, communities and the public, etc., and has established a stakeholder communication mechanism to regularly collect the real demands of stakeholders.
Materiality	Xingda has established a process for prioritizing material topics, identified and prioritized sustainability issues of high relevance to the industry, disclosed governance framework, management actions and performance data in the Company's sustainability management and operations processes, and reported materially.
Responsiveness	Focusing on topics of concern to stakeholders, Xingda has clearly disclosed its approach and performance in managing major topics in the areas of green products, circular economy, climate change, sustainable procurement, compliance and business ethics, sustainable development governance, community and human capital development, etc. and has established a grievance mechanism to adequately respond to stakeholder requests and expectations.
Impact	Xingda has established a Sustainable and high-quality Development Strategy Committee to promote and implement the Company's ESG strategy formulated by the Board of Directors, identify significant climate change risks, develop risk management measures, regularly monitor sustainability performance, and monitor and evaluate the economic, environmental and social impacts of its business activities.

Recommendations on Continuous Improvement

- It is recommended that the company discloses more material topics in future reports.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF XINGDA INTERNATIONAL HOLDINGS LIMITED

興達國際控股有限公司

(Incorporated in the Cayman Islands with limited liability)

Opinion

We have audited the consolidated financial statements of Xingda International Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 153 to 243, which comprise the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2023, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs") issued by the International Accounting Standards Board ("IASB") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT

Key Audit Matters – CONTINUED

Key audit matter

Cut-off of revenue recognition from contracts with customers

The Group sells radial tire cords and wires to customers and revenue is recognised at a point in time when the control of the goods is transferred to the customers in accordance with agreed delivery terms.

Jiangsu Xingda Steel Tyre Cord Co. Ltd. ("Jiangsu Xingda"), a subsidiary of the Company, recognised revenue from contracts with external customers amounted to RMB8,016,499,000 for the year ended 31 December 2023, representing 69.77% of total revenue of the Group.

We identified the cut-off of revenue recognition of Jiangsu Xingda as a key audit matter, due to the financial significance of Jiangsu Xingda's revenue recognised and various types of goods delivery terms involved in Jiangsu Xingda's sales contracts with its customers in different geographical locations, which increase the risk of cut-off of revenue recognition around year end.

How our audit addressed the key audit matter

Our audit procedures in relation to cut-off of revenue recognition from contracts with customers included:

- Understanding the business process of revenue recognition from contracts with customers and testing the design, implementation and operating effectiveness of key controls relevant to the cut-off of revenue recognition;
- Reviewing sales terms as stated in the sales contracts, on a sample basis, to assess whether the Group's revenue recognition policy is in compliance with IFRS 15 *Revenue from Contracts with Customers*; and
- Checking, on a sample basis, the recorded transactions by examining the underlying supporting evidences in accordance with the delivery terms of respective sales transactions, such as logistic information, bill of lading, or other documents, to assess whether the sales transactions are recorded in the correct accounting periods.

INDEPENDENT AUDITOR'S REPORT

Other Information

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors and Those Charged with Governance for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

INDEPENDENT AUDITOR'S REPORT

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements – *CONTINUED*

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in the independent auditor's report is Bao Jie.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

1. GENERAL

Xingda International Holdings Limited (the "Company", and together with its subsidiaries, collectively referred to as the "Group") is a limited company incorporated in the Cayman Islands and its shares are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). The address of the registered office of the Company is Cricket Square, Hutchins Drive, P. O. Box 2681, Grand Cayman KY1-1111, Cayman Islands. The principal place of its business is Xinghua City, Jiangsu Province, the People's Republic of China (the "PRC").

The Company is an investment holding company and its subsidiaries are engaged in the manufacture and trading of radial tire cords, bead wires and other wires.

The consolidated financial statements are presented in Renminbi ("RMB"), which is also the functional currency of the Company.

2. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRSs")

New and amendments to IFRSs that are mandatorily effective for the current year

In the current year, the Group has applied the following new and amendments to IFRSs issued by the International Accounting Standards Board ("IASB") for the first time, which are mandatorily effective for the Group's annual periods beginning on 1 January 2023 for the preparation of the consolidated financial statements:

IFRS 17 (including the June 2020 and December 2021 Amendments to IFRS 17)	Insurance Contracts
Amendment to IAS 8	Definition of Accounting Estimates
Amendments to IAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction
Amendments to IAS 12	International Tax Reform-Pillar Two model Rules
Amendments to IAS 1 and IFRS Practice Statement 2	Disclosure of Accounting Policies

Except as described below, the application of the new and amendments to IFRSs in the current year has had no material impact on the Group's financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

2. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRSs”) – CONTINUED

New and amendments to IFRSs that are mandatorily effective for the current year – continued

Impacts on application of Amendments to IAS 12 Income Taxes International Tax Reform-Pillar Two model Rules

The Group has applied the amendments for the first time in the current year. IAS 12 is amended to add the exception to recognising and disclosing information about deferred tax assets and liabilities that are related to tax law enacted or substantively enacted to implement the Pillar Two model rules published by the Organisation for Economic Co-operation and Development (the “Pillar Two legislation”). The amendments require that entities apply the amendments immediately upon issuance and retrospectively. The amendments also require that entities to disclose separately its current tax expense/income related to Pillar Two income taxes in periods which the Pillar Two legislation is in effect, and the qualitative and quantitative information about its exposure to Pillar Two income taxes in periods in which the Pillar Two legislation is enacted or substantially enacted but not yet in effect in annual reporting periods beginning on or after 1 January 2023.

The Group has applied the temporary exception immediately upon issue of these amendments and retrospectively, i.e. applying the exception from the date Pillar Two legislation is enacted or substantially enacted. The Group’s current tax expense/income related to Pillar Two income taxes is disclosed in note 11.

Impacts on application of Amendments to IAS 1 and IFRS Practice Statement 2 Disclosure of Accounting Policies

The Group has applied the amendments for the first time in the current year. *IAS 1 Presentation of Financial Statements* is amended to replace all instances of the term “significant accounting policies” with “material accounting policy information”. Accounting policy information is material if, when considered together with other information included in an entity’s financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements.

The amendments also clarify that accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material. If an entity chooses to disclose immaterial accounting policy information, such information must not obscure material accounting policy information.

IFRS Practice Statement 2 Making Materiality Judgements (the “Practice Statement”) is also amended to illustrate how an entity applies the “four-step materiality process” to accounting policy disclosures and to judge whether information about an accounting policy is material to its financial statements. Guidance and examples are added to the Practice Statement.

The application of the amendments has had no material impact on the Group’s financial positions and performance but has affected the disclosure of the Group’s accounting policies set out in note 3 to the consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

2. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRSs”) – CONTINUED

Amendments to IFRSs in issue but not yet effective

The Group has not early applied the following new and amendments to IFRSs that have been issued but are not yet effective:

Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ¹
Amendments to IFRS 16	Lease Liability in a Sale and Leaseback ²
Amendments to IAS 1	Classification of Liabilities as Current or Non-current ²
Amendments to IAS 1	Non-current Liabilities with Covenants ²
Amendments to IAS 7 and IFRS 7	Supplier Finance Arrangements ²
Amendments to IAS 21	Lack of Exchangeability ³

¹ Effective for annual periods beginning on or after a date to be determined.

² Effective for annual periods beginning on or after 1 January 2024.

³ Effective for annual periods beginning on or after 1 January 2025.

Except for the amendments to IFRSs mentioned below, the directors of the Company anticipate that the application of all other amendments to IFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

Amendments to IAS 7 and IFRS 7 Supplier Finance Arrangements

The amendments add a disclosure objective to IAS 7 *Cash flow* statements stating that an entity is required to disclose information about its supplier finance arrangements that enables users of financial statements to assess the effects of those arrangements on the entity's liabilities and cash flows. In addition, IAS 7 *Financial Instruments: Disclosures* was amended to add supplier finance arrangements as an example within the requirements to disclose information about an entity's exposure to concentration of liquidity risk.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

2. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRSs”) – CONTINUED

Amendments to IFRSs in issue but not yet effective – continued

Amendments to IAS 7 and IFRS 7 Supplier Finance Arrangements – continued

The term “supplier finance arrangements” is not defined. Instead, the amendments describe the characteristics of an arrangement for which an entity would be required to provide the information. To meet the disclosure objective, an entity will be required to disclose in aggregate for its supplier finance arrangements:

- The terms and conditions of the arrangements;
- The carrying amount and associated line items presented in the entity’s statement of financial position, of the liabilities that are part of the arrangements, and the non-cash changes in the carrying amounts of these financial liabilities;
- The carrying amount, and associated line items for which the suppliers have already received payment from the finance providers;
- Ranges of payment due dates for both those financial liabilities that are part of a supplier finance arrangement and comparable trade payables that are not part of a supplier finance arrangement; and liquidity risk information

The amendments, which contain specific transition reliefs for the first annual reporting period in which an entity applies the amendments, are applicable for annual reporting periods beginning on or after 1 January 2024. Earlier application is permitted.

The application of the amendments is not expected to have impact on the financial position or performance of the Group but may affect the disclosures of liabilities, cash flows and the Group’s exposure to liquidity risk related to the supplier finance arrangements entered into by the Group. The impacts of application, if any, will be disclosed in the Group’s future consolidated financial statements.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENT AND MATERIAL ACCOUNTING POLICY INFORMATION

3.1 Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with IFRSs issued by the IASB. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“Listing Rules”) and by the Hong Kong Companies Ordinance (the “CO”).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENT AND MATERIAL ACCOUNTING POLICY INFORMATION – CONTINUED

3.2 Material accounting policy information

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

Revenue from contracts with customers

Information about the Group's accounting policies relating to contracts with customers is provided in notes 6 and 27.

Leases

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified on or after the date of initial application of IFRS 16, the Group assesses whether a contract is or contains a lease based on the definition under IFRS 16 at inception, modification date, as appropriate. Such contract will not be reassessed unless the terms or conditions of the contract are subsequently changed.

The Group as a lessee

Short-term leases

The Group applies the short-term lease recognition exemption to leases of office premises that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. Lease payments on short-term leases are recognised as expense on a straight-line basis.

Right-of-use assets

The cost of right-of-use assets mainly includes the amount of the initial measurement of the lease liability. Except for those that are classified as investment properties and measured under fair value model, right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets that do not meet the definition of investment property as a separate line item on the consolidated statement of financial position. Right-of-use assets that meet the definition of investment property are presented within “investment properties”.

FOR THE YEAR ENDED 31 DECEMBER 2023

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENT AND MATERIAL ACCOUNTING POLICY INFORMATION – CONTINUED

3.2 Material accounting policy information – continued

Leases – continued

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments mainly include fixed payments.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

The Group as lessor

Classification and measurement of leases

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchange prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENT AND MATERIAL ACCOUNTING POLICY INFORMATION – CONTINUED

3.2 Material accounting policy information – continued

Foreign currencies – continued

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's operations are translated into the presentation currency of the Group (i.e. RMB) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the date of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve (attributed to non-controlling interests as appropriate).

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

Any specific borrowing that remain outstanding after the related asset is ready for its intended use or sale is included in the general borrowing pool for calculation of capitalisation rate on general borrowings.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

Employee benefits

Retirement benefit costs

Payments to state-managed retirement benefit schemes and defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to contributions.

Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another IFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries) after deducting any amount already paid.

Share-based payments

Equity-settled share-based payment transactions

Shares granted to employees

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value of the equity-settled share-based payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share-based payments reserve). At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share-based payments reserve. For shares that vest immediately at the date of grant, the fair value of the shares granted is expensed immediately to profit or loss.

A trustee, as an independent third party, was appointed by the Company for the administration of the share award scheme. When the trustee purchases the Company's shares from the open market, the consideration paid, including any directly attributable incremental costs, is presented as shares held under share-award scheme and deducted from total equity. No gain or loss is recognised on the transactions of the Company's own shares.

When the trustee transfers the Company's shares to grantees upon vesting, the consideration paid related to the granted shares vested and the cumulative expense recognised for the granted shares vested are transferred to retained profits.

Modification to the terms and conditions of the share-based payment arrangements

When the terms and conditions of an equity-settled share-based payment arrangement are modified, the Group recognises, as a minimum, the services received measured at the grant date fair value of the equity instruments granted, unless those equity instruments do not vest because of failure to satisfy a vesting condition that was specified at grant date. In addition, if the Group modifies the vesting conditions (other than a market condition) in a manner that is beneficial to the employees, for example, by reducing the vesting period, the Group takes the modified vesting conditions into consideration over the remaining vesting period.

The incremental fair value granted, if any, is the difference between the fair value of the modified equity instruments and that of the original equity instruments, both estimated as at the date of modification.

If the modification occurs during the vesting period, the incremental fair value granted is included in the measurement of the amount recognised for services received over the period from modification date until the date when the modified equity instruments are vested, in addition to the amount based on the grant date fair value of the original equity instruments, which is recognised over the remainder of the original vesting period.

If the modification reduces the total fair value of the share-based arrangement, or is not otherwise beneficial to the employee, the Group continues to account for the original equity instruments granted as if that modification had not occurred.

Taxation

Income tax expense represents the sum of the current and deferred income tax expense.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the consolidated statement of profit or loss and comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of the transaction does not give rise to equal taxable and deductible temporary differences.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Taxation – continued

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxation entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Property, plant and equipment

Property, plant and equipment are tangible assets that are held for use in the production or supply of goods or service, or for administrative purposes (other than freehold land and properties under construction as described below). Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Freehold lands are not depreciated and are measured at cost less subsequent accumulated impairment losses.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, including costs of testing whether the related assets is functioning properly and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. The cost of those items are measured in accordance with the measurement requirements of IAS 2. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

When the Group makes payments for ownership interests of properties which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values at initial recognition. To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land is presented as "right-of-use assets" in the consolidated statement of financial position except for those that are classified and accounted for as investment properties under the fair value model. When the consideration cannot be allocated reliably between non-lease building element and undivided interest in the underlying leasehold land, the entire properties are classified as property, plant and equipment.

Depreciation is recognised so as to write off the cost of assets other than freehold land and properties under construction less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at fair value, adjusted to exclude any prepaid or accrued operating lease income.

Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

If a property becomes an owner-occupied property because its use has been changed as evidenced by commencement of owner-occupation, the fair value of the property at the date of change in use is considered as the deemed cost for subsequent accounting.

Research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development activities (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible asset is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Impairment on property, plant and equipment and right-of-use assets

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment and right-of-use assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of property, plant and equipment and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flow have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated to the assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profits or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit or a group of cash-generating units) is increased to the revised estimated of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit or a group of cash generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Cash and cash equivalents

Cash and cash equivalents presented on the consolidated statement of financial position include:

- (a) cash, which comprises of cash on hand and demand deposits, excluding bank balances that are subject to regulatory restrictions that result in such balances no longer meeting the definition of cash; and
- (b) cash equivalents, which comprises of short-term (generally with original maturity of three months or less), highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value. Cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost of inventories are determined on a weighted average method. Net realisable value represents the estimated selling price for inventories less all estimated cost of completion and cost necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with IFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Other financial assets are subsequently measured at FVTPL.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

(ii) Financial assets at FVTPL

The Group's financial assets that do not meet the criteria for being measured at amortised cost are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial asset and is included in the "other gains and losses, net" line item.

Impairment of financial assets subject to impairment assessment under IFRS 9

The Group performs impairment assessment under expected credit loss ("ECL") model on financial assets (including trade, bills and other receivables, term deposits, and bank balances) which are subject to impairment assessment under IFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables. For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(a) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

(a) Significant increase in credit risk – continued

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(b) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

(c) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;

- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

(d) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(e) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

The ECL for the Group's trade receivables of the credit-impaired debtors are assessed individually. The ECL for the Group's trade receivables of non-credit impaired debtors, bills receivables, other receivables, term deposits and bank balances are considered on a collective basis.

For collective assessment, the Group takes nature and industry of debtors, aging information and relevant credit information into consideration when formulating the grouping.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade, bills and other receivables where the corresponding adjustment is recognised through a loss allowance account.

Foreign exchange gains and losses

The carrying amount of financial assets that are denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. Specifically:

- For financial assets measured at amortised cost, exchange differences are recognised in profit or loss in the “other gains and losses, net” line item as part of the net foreign exchange gains/(losses);
- For financial assets measured at FVTPL, exchange differences are recognised in profit or loss in the “other gains and losses, net” line item as part of the gain/(loss) from changes in fair value of financial assets.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset’s carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities at amortised cost

All financial liabilities including trade and other payables, dividend payable and borrowings are subsequently measured at amortised cost, using the effective interest method.

Obligations arising from repurchase of shares of a subsidiary

Obligations arising from repurchase of shares of a subsidiary as set out in note 31 are recognised initially at the present value of contractual stream of future cash flows payable upon exercise of the put options written by the Company to non-controlling shareholders. The Group recognises a debit in equity on initial recognition of the written put over the non-controlling shareholders which is presented as a deduction from non-controlling interests. The gross financial liability arising from the put options is recognised when contractual obligation to repurchase the shares in a subsidiary is established even if the obligation is conditional on the counterparty exercising a right to sell back the shares to the Group.

Subsequent, the financial liabilities are measured at amortised cost, using effective interest method. Prior to the exercise of the put options by non-controlling shareholders, all subsequent changes in the carrying amount of the financial liabilities that result from the remeasurement of the present value of the amount payable upon exercise of the put options to the non-controlling interests are recognised in the profit or loss.

Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments. These foreign exchange gains and losses are recognised in the 'other gains and losses, net' line item in profit or loss (note 9) as part of net foreign exchange gains/(losses) for financial liabilities that are not part of a designated hedging relationship.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY – CONTINUED

Estimated provision of ECL for trade receivables

The Group has applied the simplified approach in IFRS 9 to measure the loss allowance at lifetime ECL for trade receivables. The ECL of trade receivables are assessed by using collective basis with appropriate grouping for non-credit impaired debtors and are assessed individually for credit-impaired debtors.

For trade receivables which are non-credit impaired, collective assessment is performed by grouping debtors based on the nature and industry of debtors, aging information and relevant credit information.

The provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group's trade receivables are disclosed in notes 39 and 24, respectively.

Estimated impairment of property, plant and equipment

Property, plant and equipment are stated at costs less accumulated depreciation and impairment, if any. In determining whether an asset is impaired, the Group has to exercise judgement and make estimation, particularly in assessing: (1) whether an event has occurred or any indicators that may affect the asset value; (2) whether the carrying value of an asset can be supported by the recoverable amount, in the case of value in use, the net present value of future cash flows which are estimated based upon the continued use of the asset; and (3) the appropriate key assumptions to be applied in estimating the recoverable amounts including cash flow projections and an appropriate discount rate. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash generating unit to which the assets belongs. Changing the assumptions and estimates, including the discount rates or the growth rate in the cash flow projections, could materially affect the recoverable amounts.

During the year ended 31 December 2023, in view of that the ongoing customers-basis transfer plan of a non-wholly-owned subsidiary of the Company, incorporated and operated in Thailand, has been delayed than original transfer timeline and not achieved budgeted sales plan set for the year, the management of the Group concluded there is such indication and conducted impairment assessment on carrying amounts of property, plant and equipment of this subsidiary, being a separate cash-generating unit.

According to the result of the assessment, management of the Group determined that the recoverable amount of the cash-generating unit is lower than the carrying amount by RMB91,623,000. As at 31 December 2023, the carrying amount of property, plant and equipment held by the subsidiary in Thailand was RMB983,046,000 after taking into account the impairment loss of RMB91,623,000. Details of the impairment of property, plant and equipment are disclosed in note 16.

5. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of debt, which includes borrowings, lease liabilities and obligations arising from repurchase of shares disclosed in notes 28, 30 and 31 respectively and equity attributable to owners of the Company, comprising share capital and reserves.

The directors of the Company review the capital structure on an annual basis. As part of this review, the directors consider the cost of capital and the risks associate with each class of capital. Based on recommendations of the directors, the Group will balance its overall capital structure through the payment of dividends, share buy-backs, new share issues as well as raising of new borrowings and repayment of existing borrowings.

6. REVENUE AND SEGMENT INFORMATION – CONTINUED

Revenue – continued

(b) Performance obligations for contracts with customers and revenue recognition policies

The Group sells radial tire cords and wires to external customers in which the revenue is recognised at a point in time when the control of the goods has transferred to the customers, mainly being when the goods are either picked up at site or free on board or delivered to the designated locations.

A receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

(c) Transaction price allocated to the remaining performance obligation for contracts with customers

All performance obligations for sale of radial tire cords, bead wires and other wires are for periods of one year or less. As permitted under IFRS 15, the transaction price allocated to these unsatisfied contracts is not disclosed.

Segment information

The directors of the Company, being the chief operating decision maker of the Group, regularly review revenue analysis by types of products which are basically radial tire cords, bead wires and other wires, for the purposes of resource allocation and assessment of performance. However, other than revenue analysis, no operating results and other discrete financial information is available for the assessment of performance of the respective types of products. The directors of the Company review the operating results of the Group as a whole to make decisions about resource allocation. The operation of the Group constitutes one single operating and reportable segment under IFRS 8 *Operating Segments* and accordingly no separate segment information is prepared. The information about its non-current assets (other than deferred tax assets and term deposits) by geographical locations of the assets is set out as below:

The tax charge represents income tax in the PRC which is calculated at the prevailing tax rate prevailing on the taxable income of the group entities in the PRC. Under the Law of the PRC on Enterprise Income Tax (the "EIT Law") and Implementation Regulations of the EIT Law, the tax rate of certain PRC subsidiaries is 25% for both years except for Jiangsu Xingda as further described below.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

11. INCOME TAX EXPENSE – CONTINUED

Following the renewal of the High-tech Enterprise Certificate (the “Certificate”) issued on 30 November 2021, Jiangsu Xingda is entitled for the tax incentive as High-tech Enterprise and accordingly, enjoyed preferential tax rate of 15% till 2023.

No provision for taxation in Hong Kong has been made as the Group’s income neither arises in, nor is derived from, Hong Kong for both years.

No provision for taxation in Thailand has been made as assessable profit of the Group’s subsidiary in Thailand was absorbed by its unrecognised tax loss for year ended 31 December 2023 (2022: No provision for taxation in Thailand has been made as the Group’s subsidiary in Thailand have no assessable profit).

Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

The Group has applied the temporary exception issued by the IASB in May 2023 from the accounting requirements for deferred taxes in IAS 12. Accordingly, the Group neither recognises nor discloses information about deferred tax assets and liabilities related to Pillar Two income taxes.

In December 2023, the Luxembourg Parliament transposed in domestic law of the European Union directive of the Pillar Two minimum taxation rules, where a subsidiary of the Company was incorporated, enacting the Pillar Two income taxes legislation effective from fiscal years starting on or after 31 December 2023. Under the legislation, the group entities incorporated in Luxembourg is required to pay the top-up tax on profits that are taxed at an effective tax rate of less than 15 per cent.

For the year ended 31 December 2023, profits generated by this group entity incorporated in Luxembourg accounted for less than 1% of the Group’s consolidated profit. After utilisation of unrecognised tax loss in prior year, the group entity has been taxed at progressive tax rate of 15% to 17% for the year ended 31 December 2023. The management assessed the impact of Pillar Two income taxes to the Group is insignificant.

The Group is continuing to assess the impact of the Pillar Two income taxes legislation on its future financial performance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

11. INCOME TAX EXPENSE – CONTINUED

The income tax expense for the year can be reconciled to the profit before tax per the consolidated statement of profit or loss and other comprehensive income as follows:

16. PROPERTY, PLANT AND EQUIPMENT – CONTINUED

Construction in progress as at 31 December 2023 and 2022 mainly represents plant, machinery and equipment and buildings constructed for the Group's own use.

The above items of property, plant and equipment except for construction in progress are depreciated over their estimated useful lives and after taking into account of their estimated residual value, on a straight-line basis at the following rates per annum:

Buildings	Over the shorter of lease term of land and 20 to 30 years
Renovation	Up to 30 years
Plant, machinery and equipment	2 to 10 years
Furniture and fixtures	5 years
Motor vehicles	5 years

The buildings are situated on land in the PRC and Thailand.

Impairment assessment

For the year ended 31 December 2023, the ongoing customers-basis transfer plan of Xingda Steel Cord (Thailand) Company Limited ("Xingda Thailand"), a non-wholly-owned subsidiary of the Company and incorporated and operated in Thailand, has been delayed than original transfer timeline and not achieved budgeted sales plan set for the year. The management of the Group concluded there is such indication and conducted impairment assessment on carrying amounts of property, plant and equipment of this subsidiary, being a separate cash-generating unit.

The recoverable amount of cash-generating unit has been determined based on a value in use calculation. That calculation uses cash flow projections based on the financial budgets approved by the management of the Group covering the following 5 years with a pre-tax discount rate of 15.2% as at 31 December 2023.

Key assumptions for the value in use calculation are the budgeted sales and cost of sales, which consist of estimated unit price/cost and sales quantities, and are determined based on the cash-generating unit and a group entity with similar customer base's past performance and management expectations for the market development. The cash flows beyond a 5-year period are extrapolated using 2% growth rate, with reference to Thailand long-term average growth rate.

Based on the result of the assessment, management of the Group determined that the recoverable amount of the cash-generating unit is lower than the carrying amount by RMB91,623,000. The impairment amount has been allocated to the long-term assets held by the subsidiary incorporated in Thailand such that the carrying amount of each category of asset is not reduced below the highest of its fair value less cost of disposal, its value in use and zero. Based on the value in use calculation and the allocation, impairment loss of RMB91,623,000 has been recognised against property, plant and equipment held by this subsidiary. As at 31 December 2023, the carrying amount of property, plant and equipment located in Thailand is RMB983,046,000 after taking into account such impairment loss.

For both years, the Group leases lands located in the PRC and office premises for its operations. Lease contracts are entered into for fixed term of 2 to 70 years. Lease terms are negotiated on an individual basis and contain different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applied the definition of a contract and determines the period for which the contract is enforceable.

As at 31 December 2023, the Group's certain leasehold lands located in the PRC with carrying amount of RMB195,746,000 (2022: RMB199,896,000) have been pledged as securities for the Group's bank borrowings as set out in note 28.

17. RIGHT-OF-USE ASSETS – CONTINUED

The Group regularly entered into short-term leases for its office premises. As at 31 December 2023 and 2022, the portfolio of short-term leases is similar to the portfolio of short-term leases to which the short-term lease expense disclosed above.

In addition, lease liabilities of RMB779,000 are recognised with related right-of-use assets of RMB706,000 as at 31 December 2023 (2022: lease liabilities of RMB1,030,000 are recognised with related right-of-use assets of RMB959,000). The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Lease assets may not be used as security for borrowing purposes.

19. INVESTMENT PROPERTIES – CONTINUED

In determining the fair value of the relevant properties, it is the Group's policy to engage a third party qualified external valuer to perform the valuation. The management works closely with the qualified external valuer to establish the appropriate valuation techniques and inputs to the model.

The fair values of the Group's investment properties at 31 December 2023 and 2022 have been arrived at on the basis of the valuations carried out on that date by Cushman & Wakefield Limited, an independent qualified professional valuer not connected with the Group.

The fair value was determined based on the investment approach, where the rentals of all lettable units of the properties are assessed and discounted at the market yield expected by investors for this type of properties and, where appropriate, by referencing to the sales of properties taking into account the comparable evidence as available in the relevant market. The rentals are assessed by reference to the rentals achieved in the lettable units of the properties as well as other lettings of similar properties in the neighbourhood. The market yield is determined by reference to the yields derived from analysing the sales transactions of similar commercial properties in Shanghai and adjusted to take into account the market expectation from property investors to reflect factors specific to the Group's investment properties. There has been no change from the valuation technique used in the prior year. In estimating the fair value of the properties, the highest and best use of the properties is their current use.

The key inputs used in valuing the investment properties were the market yield of 4.67% (2022: 4.67%) and rental ranging from RMB142 to RMB160 per square meter per month (2022: RMB146 to RMB165 per square meter per month). Slight increases in the market yield and rental would result in a significant decrease and increase, respectively, in fair value measurement of the investment properties, and vice versa.

Details of the Group's investment properties and information about the fair value hierarchy as at 31 December 2023 and 2022 are as follows:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

20. DEFERRED TAXATION – CONTINUED

As at 31 December 2023, the Group has not recognised deferred tax asset on deductible temporary differences amounting to RMB48,913,000 (2022: RMB188,304,000), as it is not probable that taxable profit will be available against which the deductible temporary differences can be utilised.

At the end of the reporting period, the Group has unused tax losses of approximately RMB227,261,000 (2022: RMB199,176,000) available for offset against future profits. No deferred tax asset has been recognised in respect of the unused tax losses due to the unpredictability of future profit streams. Included in the unrecognised tax losses, RMB224,795,000 (2022: RMB195,706,000) are with expiry dates within six years after the reporting period, as disclosed in the following table, RMB2,466,000 (2022: RMB2,466,000) may be carried forward indefinitely and for the year 31 December 2022, RMB1,004,000 tax losses are to expire within seventeen years which was utilised during the current year.

During the year ended 31 December 2023, no unrecognised tax losses is expired (for the year ended 31 December 2022: RMB1,761,000).

	2,015,840	1,422,803
	2,741,177	2,922,476

Deposits with maturity periods over 3 months but within 1 year are presented as current assets whilst deposits with maturity periods of one to three years (2022: one to three years) are presented as non-current assets. All of the Group's term deposits, which are not pledged, can be early withdrawn anytime before contractual maturity, according to managements' intention, by sacrificing term deposits interests. As at 31 December 2023, other than a RMB1,736,680,000 term deposits with original maturity from 2025 to 2027 (the "Term Deposit"), the directors of the Company consider that the Group will not early withdraw the term deposits before maturity. The Term Deposits are expected to be early withdrawn in order to meet the Group's liquidity demand in the coming 12 months after the reporting period.

Pledged term deposits are placed with banks in the PRC and represent term deposits pledged to banks to secure bank borrowings.

Restricted term deposits are placed with banks in Thailand and represent term deposits to guarantee purchase agreements of natural gas and utility entered into by a subsidiary of the Company located in Thailand.

The term deposits are held to collect contractual cash flows that are solely payments of principal and interest on the principal amount outstanding. The term deposits, other than the Term Deposit expected to be early withdrawn by the managements, carry fixed interest rates for both years, that the effective interest rates range from 2.10% to 4.13% per annum (2022: from 2.10% to 4.13% per annum) for the Group. The Term Deposit carries market interest rate. The carrying amounts of the term deposits of the Group approximated their fair value.

Since the year ended 31 December 2022, in respect of a Syndicated Borrowing Contract entered into by a non-wholly owned subsidiary of the Company and five banks (the "Syndicated Borrowing"), the subsidiary of the Company breached certain of the terms of the bank borrowing, which are primarily related to the asset-liquidity ratio of the entity and the Group. On discovery of the breach, the directors of the Company informed the lenders and commenced a renegotiation of the terms of the loan with the relevant bankers. For those bank lenders has not agreed to waive its right to demand immediate payment as at the end of the reporting period, respective loan balances have been classified as a current liability with a carrying amount of RMB367,875,000 as a 31 December 2023 (31 December 2022: RMB901,500,000). In any event, should the lender call for immediate repayment of the Syndicated Borrowing, the directors of the Company believe that adequate alternative sources of finance, including unpledged term deposits and unutilised bank facilities, are available to ensure that there is no threat to the continuing operations of the Group.

Subsequent to the reporting period, RMB282,875,000 out of RMB367,875,000 borrowings which have been classified as a current liability arising from the covenant breach, has been repaid.

Obligations arising from repurchase of shares – current liability	<u>223,944</u>	<u>249,677</u>

On 16 December 2020, Jiangsu Xingda, an indirectly non-wholly owned subsidiary of the Company, entered into capital increase agreements (the “Capital Increase Agreements”) with five strategic investors (hereinafter collectively referred to as the “Investors”), namely, Chengshan Group, Linglong Tire, Sailun Group, Triangle Tyre and Jiaying Jianxin Chenyue, pursuant to which the Investors subscribed for, in aggregate, 3.35% of the equity interest, representing RMB63,888,885 of enlarged paid-in capital of Jiangsu Xingda, by way of cash contribution at an aggregate consideration of RMB230,000,000.

The Capital Increase Agreements each contains a share repurchase arrangement, pursuant to which Jiangsu Xingda granted redemption right to the Investors, who have the put option to demand Faith Maple to repurchase their shares at an agreed price equivalent to full consideration of the capital injection plus imputed interest at 8% per annum deducting all dividend (including tax) received from Jiangsu Xingda starting from the date of payment of share subscription, if Jiangsu Xingda does not complete the A share initial public offering and become listed on either the Shanghai Stock Exchange or Shenzhen Stock Exchange by 31 December 2022.

In January 2023, Jiaying Jianxin Chenyue, who held equity interests representing approximately 0.44% of the total issued capital of Jiangsu Xingda, exercised the put option and entered into an equity transfer agreement with Xingda Xiu Yuan and Xingda Xiu Yuan purchased all the aforesaid equity interests in Jiangsu Xingda held by Jiaying Chenyue (the “Relevant Transfer”) at a consideration of RMB32,565,000, representing full consideration of its capital injection plus imputed interest at 8% per annum deducting all dividend (including tax) received from Jiangsu Xingda starting from the date of payment of share subscription. Upon the completion of the Relevant Transfer, obligation arising from repurchases of shares to Jiaying Jianxin Chenyue amounting to RMB32,565,000 is derecognised and Xingda Xiu Yuan became a non-controlling interest of the Group since then.

Till 31 December 2023, none of the other four strategic investors exercised the put option. The obligation of the Group arising from repurchase of shares was regarded as a financial liability with present value of RMB223,944,000 at 31 December 2023 (2022: RMB249,677,000). The imputed interest of 8% per annum charged to profit or loss under finance costs during the current period amounted to RMB15,999,000 (for the year ended 31 December 2022: RMB18,604,000) and dividends received from Jiangsu Xingda amounted to RMB9,167,000 (for the year ended 31 December 2022: RMB17,889,000), which was deducted from the obligations arising from repurchase of shares.

33. SHARE-BASED PAYMENTS

Share-Award Scheme

The Company's share award scheme (the "Scheme"), was adopted pursuant to a resolution passed on 4 September 2009 for the primary purpose of providing incentives to the participants of the Scheme (the "Participants") including the directors and certain employees of the Group, to achieve performance goals which in turn achieve the objectives of increasing the value of the Group and align the interests of directors and eligible employees directly to the shareholders of the Company through ownership of shares. A trustee, as an independent third party, was appointed by the Company for the administration of the Scheme. The trustee shall purchase the Company's shares from the market out of cash contributed by the Company and shall hold such shares in trust until they are vested to the Participants in accordance to the rules of the Scheme.

No shares have been purchased from the open market pursuant to the Scheme during the years ended 31 December 2023 and 2022. At 31 December 2023 and 2022, 2,139,665 treasury shares were held by the trustee.

During the year ended 31 December 2023, no awarded shares vested during the year and 2,892,000 awarded shares were forfeited resulting from the retirement of two directors of the Company during the year (for the year ended 31 December 2022: 3,333,333 awarded shares vested).

36. RETIREMENT BENEFIT SCHEME CONTRIBUTIONS

The employees of the Group's entities in Hong Kong participate in a Mandatory Provident Fund Scheme (the "MPF Scheme") established under the Mandatory Provident Fund Schemes Ordinance in Hong Kong. The assets of the schemes are held separately from those of the Group, in funds under the control of trustees. For members of the MPF Scheme, the Group contributes 5% of relevant payroll costs to the scheme at a cap at HK\$1,500 per month, which contribution is matched by the employee.

The employees of the Group's subsidiaries in PRC are covered by government-sponsored defined contribution pension schemes, and are entitled to a monthly pension from their retirement dates. The PRC government is responsible for the pension liability to these retired employees. The Group is required to make annual contributions to the retirement plan at a rate of 16.0% (2022: 16.0%) of the employees' salaries subject to the minimum requirement of the local government, which are charged to operations as expenses when the contributions are due.

The Group's contribution to the retirement benefit scheme that is charged to profit or loss is RMB70,206,000 (2022: RMB62,971,000) for the year ended 31 December 2023.

b. Financial risk management objectives and policies

The Group's major financial instruments include term deposits, bank balances and cash, trade, bills and other receivables, financial assets at FVTPL, trade and other payables, dividend payable, borrowings and obligations arising from repurchase of shares. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

(i) Currency risk

Several subsidiaries of the Company have foreign currency sales and purchases, which expose the Group to foreign currency risk. Approximately 32.1% (2022: 30.9%) of the Group's sales is denominated in currencies other than the functional currency of the group entity making the sale, whilst 5.0% (2022: 5.5%) of costs is denominated in currencies other than the functional currency of the group entity.

Certain trade, bills and other receivables, bank balances, trade and other payables, and borrowings of the Group are denominated in USD, HK\$, EUR, and RMB. The Group currently does not have a foreign currency hedging policy. However, the management of the Group monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

Foreign currency sensitivity

The following details the Group's sensitivity to a 5% (2022: 5%) increase and decrease in RMB against USD, HK\$ and EUR and Thailand Baht ("THB") against RMB, USD and EUR. 5% (2022: 5%) is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in exchange rates for the purpose of assessing foreign currency risk. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year ended for a 5% (2022: 5%) change in foreign currency rates. A positive number below indicates an increase in post-tax profit for the year where RMB strengthen 5% (2022: 5%) against USD, HK\$ and EUR and THB against RMB, USD and EUR, and vice versa.

	Year ended 31/12/2023 RMB'000	Year ended 31/12/2022 RMB'000
RMB against USD	(24,229)	(37,648)
RMB against HK\$	3,828	7,882
RMB against EUR	(4,025)	(6,838)
THB against RMB	17,892	17,064
THB against USD	(4,068)	(1,820)
THB against EUR	(694)	(94)

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk as the year end exposure does not reflect the exposure during the year.

(ii) Interest rate risk

The Group is exposed to fair value interest rate risk in relation to fixed-rate term deposits (see note 25 for details), fixed-rate borrowings (see note 28 for details), lease liabilities (see note 30 for details) and obligations arising from repurchase of shares (see note 31 for details). The Group currently does not have an interest rate hedging policy. However, the management of the Group monitors interest rate exposure and will consider hedging significant interest rate exposure should the need arise.

The Group is also exposed to cash flow interest rate risk in relation to variable-rate borrowings (see note 28 for details of these borrowings) and variable-rate bank balances and the Term Deposit expected to be early withdrawn (see note 25 for details of these bank balances and the Term Deposit). It is the Group's policy to keep certain of its borrowings at floating rate of interests so as to minimise the fair value interest rate risk.

(ii) Interest rate risk – *continued*

The Group's exposures to interest rates on financial liabilities are detailed in respective notes and the liquidity risk management section of this note. The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of Hong Kong Interbank Offered Rate and China Loan Prime Rate.

Interest rate sensitivity

The sensitivity analyses below have been determined based on the exposure to variable-interest-rate bank balances, the Term Deposit and bank borrowings (2022: variable-interest-rate bank borrowings) at the end of the reporting period.

A 10 basis points and 50 basis points increase or decrease for financial assets and financial liabilities (2022: 50 basis points increase or decrease for financial liabilities), respective are used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

For financial assets, if interest rates had been 10 basis points higher/lower and all other variables were held constant, the Group's post-tax profit for the year ended 31 December 2023 would increase/decrease by approximately RMB2,251,000.

For financial liabilities, if interest rate had been 50 basis points higher/lower and all other variables were held constant, the Group's post-tax profit for the year ended 31 December 2023 would decrease/increase by approximately RMB5,698,000 (2022: RMB6,436,000).

In management's opinion, the sensitivity analysis is unrepresentative of the inherent interest rate risk as the year end exposure does not reflect the exposure during the year.

(iii) Other price risk

The Group is exposed to price risk through its financial assets at FVTPL. The directors of the Company manage this exposure by maintaining a portfolio of investments with different risks.

Sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to price risks at the reporting date.

If the price of the respective financial assets at FVTPL has been 5% higher/lower, profit for the year ended 31 December 2023 would increase/decrease by RMB3,472,000 (2022: RMB3,255,000) as a result of the changes in fair value of financial assets at FVTPL.

In the opinion of directors of the Company, the sensitivity analysis is unrepresentative of the Group's price risk as it only reflects the impact of price changes to financial assets at FVTPL held at the end of each reporting period but not the exposure during the year ended 31 December 2023.

Credit risk and impairment assessment

As at 31 December 2023 and 2022, the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position best represent the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties.

Trade receivables arising from contracts with customers

Before accepting any new customers, the Group would assess the credit quality of each potential customer and define credit limit for each customer. In addition, the Group will review the repayment history of receivables by each customer with reference to the payment terms stated in the contracts to determine the recoverability of a trade receivable.

The Group has enhanced its credit risk management by accepting letter of credit issued by reputable banks for certain domestic customers.

In addition, the Group performs impairment assessment under ECL model upon application of IFRS 9 on trade balances individually for credit-impaired balances or on a collective basis for non-credit-impaired balances. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The Group's concentration of credit risk by geographical locations is mainly in the PRC, which accounted for 78.4% (2022: 72.6%) of the total trade receivables as at 31 December 2023.

Bills receivable arising from contracts with customers

The Group performs impairment assessment under ECL model upon application of IFRS 9 on bills receivable arising from contracts with customers based on 12m ECL. The credit risk on bills receivable is limited since the settlement parties are reputable banks with high credit ratings assigned by international credit-rating agencies.

Other receivables

The Group has taken into account the financial position of the counterparties, based on the track record of regular settlements, the amounts are expected to be recoverable and the expected credit losses on other receivables are considered to be insignificant.

Term deposits and bank balances

The Group performs impairment assessment under ECL model upon application of IFRS 9 on term deposits and bank balances based on 12m ECL.

The credit risk on liquid funds is limited because the counterparties are various banks with high credit ratings assigned by international credit-rating agencies.

The Group's internal credit risk grading assessment comprises the following categories:

Internal credit rating	Description	Trade receivables	Other financial assets
Low risk	The counterparty has a low risk of default and does not have any past-due amounts	Lifetime ECL – not credit-impaired	12-month ECL
Watch list	Debtor frequently repays after due dates but usually settle in full after due date	Lifetime ECL – not credit-impaired	12-month ECL
Doubtful	There have been significant increases in credit risk since initial recognition through information developed internally or external resources	Lifetime ECL – not credit-impaired	Lifetime ECL – not credit-impaired
Loss	There is evidence indicating the asset is credit-impaired	Lifetime ECL – credit-impaired	Lifetime ECL – credit-impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written off	Amount is written off

Note: For trade receivables for sales of radial tire cords, bead wires and other wires, the Group has applied the simplified approach in IFRS 9 to measure the loss allowance at lifetime ECL. For trade receivables, except for debtors that are credit-impaired, the Group determines the expected credit losses on these items by using collective basis, grouped by nature and industry of the customers, representing customers' abilities to pay all amounts due in accordance with the contractual terms.

The following table provides information about the exposure to credit risk for trade receivables which are assessed based on a collective basis as at 31 December 2023 within lifetime ECL (not credit-impaired). Credit-impaired debtors included in trade receivables with gross carrying amount of RMB16,488,000 (2022: RMB29,489,000) as at 31 December 2023 were assessed individually.

Liquidity risk tables

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest dates on which the Group can be required to pay. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment dates.

The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curve at the end of the reporting period.

The amounts included above for variable interest rate instruments for non-derivative financial liabilities are subject to change if change in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

c. Fair value

The directors of the Company consider that the carrying amounts of all financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate to their corresponding fair values.

Fair value of the Group's financial assets that are measured at fair value on a recurring basis

Some of the Group's financial assets, representing listed equity securities in Hong Kong and A Share Market, are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets are determined (in particular, the valuation technique(s) and inputs used) as well as the level of the fair value hierarchy into which the fair value measurements are categorised (levels 1 to 3) based on the degree to which the inputs to the fair value measurements is observable.
